ILLINOIS CROP REPORT,

—FOR—

MAY 1, 1895.

Synopsis of the Reports of Correspondents Upon the Yield of the Principal Crops, Etc.

ILLINOIS STATE BOARD OF AGRICULTURE, SPRINGFIELD, May 1, 1895.

The information contained in this circular was obtained from the reports of correspondents mailed to this office the first of May.

The correspondents are, as a rule, representative farmers of extended experience who are deeply interested in the accuracy of the reports made by this Department.

A large number of the correspondents have been reporting to this Department for the past nineteen years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number nearly six hundred, and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles) and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

WINTER WHEAT.

The reports on this crop show that a very small proportion, only about 4 per cent. of the area seeded last fall was injured by the cold or insects. During the most severe weather last winter the ground was generally well covered with snow, but on some higher land the wind blew this covering off and exposed the tender plant to the cold.

The area left for harvest is 1,806,897 acres, or 897,137 acres less than was harvested in 1894. The low price of wheat has probably influenced farmers to a considerable extent to plant less of this grain, but the dry weather at seeding time must also be taken into consideration.

The condition of the crop on May 1 is nearly an average, being 88 per cent. in the northern and 92 per cent. in both the central and southern divisions of the State.

Hessian fly is reported as working in the wheat in Randolph and Clark counties. Chinch bugs are swarming in the south-central and southern portions of the State, tit is not thought that they have done much injury yet, as they are the old bugs, but

they are preparing for a vigorous campaign later on, when the corn is up. Unless we have plenty of beating rains, the damage done by this pest this season promises to be very great.

In Henderson county the wheat is large and rank, and beginning to lodge. In Knox and Lee counties some wheat is being plowed up.

SPRING WHEAT.

The area devoted to spring wheat in the northern division of the State is 9 per cent. less than a year ago, when 113,899 acres were seeded.

The May I condition of the crop in this division is 97 per cent. of an average.

In the central division of the State, only two counties, Piatt and Scott, make a report on this crop, and both the area and condition are given as 100 in both counties.

OLD WHEAT.

More than double the amount of old wheat is now in producers' hands than at this date last year, although the proportion is 2 per cent. less than an average.

The wheat product of 1894 was unusually large, so that even with only 13 per cent. of it remaining in first hands at this date, the amount is above the average. There are 5,512,379 bushels reported on hand May 1.

Although rumors are rife that wheat is being largely fed to stock, our reports do not indicate that any large amount is being used in that way, although some farmers have experimented with it.

The following table gives the amount of old wheat in first hands the first of May, since and including 1880:

YEAR PRODUCED.	Crop in bushels.	Per cent. crop on hand following May 1.	Amount erop in producers' hands following May 1	Surplus whe't above seed and consump- tion at harvest.	Deficit at harvest.
1880	56,508,309	15	8,476,246	39,851,883	
1881	22,374,163	13	2,924,039	5,765,414	
1882	52,323,261	15	8,174,634	36,214,133	
1883	20,374,572	15	3,208,358	4,575,152	
1884	34,367,493	18 14	6,350,202	17,367,794	5 420 500
1885	5,299,243	15	1,201,904	12,082,999	5,439,786
1886	28,284,086 38,076,486	13	4,000,931 5,034,875	21,842,119	
1887	33,916,920	12	4,022,569	17,334,947	
1888 1889	37,201,916	15	5,722,594	20,919,433	
1890	13,608,504	12	1,580,903	20,313,433	2,002,400
1891	34,620,828	17	5,563,995	16,853,536	2,002,400
1892	30,578,543	18	5,428,060	13,086,069	
1893	18,916,314	14	2,657,854	891,488	
1894	41,315,099	13	5,512,379	23,288,962	
Average	31,191,049	15	4,657,303	17,774,379	3,721,093

The amount of surplus wheat above seed and consumption given in the above table determined by deducting at time of harvest from the entire crop of the season, the quatity required to seed an area equal in extent to that harvested, at the rate of 1½ busl per acre, and provide 4 bushels per capita for consumption during the ensuing twee months.

RYE.

About 4 per cent. of the area seeded to rye last fall was winter-killed, leaving 114,430 acres for harvest. More damage was done in the northern division of the State than in the central and southern portions, where but 1 and 2 per cent. respectively was destroyed.

The May 1 condition of the crop is encouraging for 95 per cent. of an average yield per acre in northern and southern Illinois and 96 per cent. in the central division of the State. In Henderson county the rye is beginning to head. The average condition is better than usual at this date, but about 1 point below the 1894 condition.

OATS.

The area devoted to oats this season is 3 per cent. larger than last year, when 3,424,422 acres were sowed. Part, if not all, of this increased area is doubless due to the deficiency of the area seeded to wheat.

The ground was in unusually good condition for sowing oats this spring, being generally friable, and the May 1 condition of the crop is much better than for several years past. In the northern division of the State the May 1 condition was 96 per cent. of an average, in the central division 97 and in the southern division 94 per cent. On May 1, 1894, the condition of oats in southern Illinois was but 74 per cent. of an average, a difference in this section of the State of 20 points in favor of 1895.

BARLEY.

A decrease of 12 points in the area of barley as compared with 1894 in the northern division of the State, is reported by our crop correspondents. Out of sixteen counties in this section, in only five is the area as large as last year. The May 1 condition of the crop is 95 per cent. of an average. In central Illinois one county reports as large an area as last year, and the condition 10 points above the average. In southern Illinois two counties report a 10 per cent. larger area than in 1894, but the condition is 20 points short.

OLD CORN.

Thirty per cent. of the corn raised in northern Illinois in 1894, remained in producers' hands May 1, 1895, or 27,697,164 bushels. In central Illinois 26 per cent., or 25,210,284 bushels, and in the southern portion of the State 21 per cent., or 3,663,560 bushels, remained in first hands on that date.

These 56,571,008 bushels were 27 per cent. of the the 1894 corn crop.

The season has been favorable this year for good preparation of the ground, and early planting of coin, and by the time this report goes to print, almost the entire corn crop will be in the ground, and much of it up.

The only discouraging thing in regard to corn which has yet developed, is the immense quantity of old chinch bugs, which are reported all over southern and south-central Illinois. These old, winged bugs are not in themselves injurious, but they are the parents of young broods which will be hatched out just when the corn is most tender and susceptible to injury. However, we may be blessed with good rains which are most effective enemies of this pest, and our anticipations of damage may be premature.

The following table gives the amount of old corn in the producers' hands May 1, the past sixteen years, as well as the extent of the crop produced each succeeding year:

Year Produced.	Crop in bushels.	Per ct. corn on hand fol- lowing May.	Bushels corn in producers' hands follow- ing May.
1879	305,913,277 250,697,036 174,491,706 179,471,729 186,583,558	32+ 28+ 21+ 24+ 21+	99,229,889 71,929,343 37,445,964 43,450,857
1883 1884 1885 1886 1886	207,556,662 230,922,298 182,755,053 129,537,603	24+ 24+ 24+ 18+	39,478,621 50,102,264 57,047,027 43,346,028 23,573,279
1888 1889 1890 1891 1892	277,726,451 247,980,589 164,512,020 217,982,050 137,540,285	33+ 36 20 35 32	92,584,238 90,503,175 32,653,868 75,969,599 45,599,187
1893. 1894	167,687,971 205,637,061 204,187,209	$-\frac{\frac{24}{27}}{27}$	41,064,384 56,571,008 56,346,796

MEADOWS.

The area in meadows this year is 6 per cent. smaller than that of 1894. In northern Illinois the area is 94 per cent. as compared with last year; in central Illinois it is 89 per cent. and in the southern division of the State, 99 per cent.

The past year or two have been very hard on both meadows and pastures, and a good many have been plowed up and oats and corn planted. The dry weather this spring has prevented their making much growth, especially in the northern part of the State, where the drought has been most severe. Cut worms have ruined the clover in Hardin county.

The May 1 condition of meadows was only 88 per cent. of an average in northern Illinois, while it ran up to 93 per cent. in the central, and 97 per cent. in the southern divisions. The average condition for the entire State was 93 per cent.

PASTURES.

Pastures and meadows usually rank about together, and the same causes that affect one, affect the other also.

The decrease in the area of pastures is not quite so large as that of meadows, being only 4 per cent. Both northern and central Illinois report the area as compared with last year as 95 per cent., and in southern Illinois it is 97 per cent.

Only 88 per cent. of an average condition of pastures is reported from northern Illinois.

The dairymen of this section are always anxious to put their cattle on grass as early as possible, and are apt to make the mistake of turning them into the pastures before they have gotten enough start to stand the cropping, and the danger is especially great in a dry season like the present has been there, when crops have all they can do to grow, without any outside drawbacks.

The condition of pastures in central and southern Illinois is 93 and 92 per cent. repectively, and the State average is 91 per cent.

SPRING WORK.

In neither the northern nor central divisions of the State was spring work so far advanced on May 1, 1895, as is usual at that date. In both of these divisions there was a deficiency of 6 points, but in southern Illinois 4 per cent. more work had been done than ordinarily.

The spring has been unusually dry in northern Illinois, and everything is suffering for rain. In DeWitt county, in central Illinois, some farmers are hauling water for stock and house use.

The soil as a general thing has been in prime working condition.

LIVE STOCK.

HORSES.

The number of horses on hand May 1 is but 93 per cent. as compared with 1894.

While horses, as well as all other kinds of live stock, are generally healthy, there has been a good deal of distemper, though not usually of a malignant nature. This disease is reported from the counties of Mercer, Winnebago, Richland, Saline. Coles, Douglas, Greene, Hancock, Macon (where it is in a very malignant form and the horses are badly used up), Clay and Tazewell. In Ogle county a little epizootic is reported, and in Henderson about two-thirds of the mares cast their foals from four to eight weeks be fore foaling time, from some unknown cause.

MULES.

But 95 per cent. of the number of mules reported last May are on hand at this date. Their condition is generally good, being 97 per cent. of an average.

CATTLE.

There is a very serious decrease in the number of cattle this year as compared with last, there being only 81 per cent. on hand May 1. Except for a little lung trouble in Lee county, no disease among cattle has been reported.

DAIRY COWS.

The proportion of dairy cows in the State this year is about the same as beef cattle, but they are differently distributed, for while the number of beef cattle was largest in southern Illinois, the dairy cows are more numerous in the northern part of the State.

The condition of cows is 1 per cent. better than that of beef cattle, being 97 per cent. of an average.

HOGS.

The number of hogs on hand May 1 is 14 per cent. less than were reported a year ago. Last fall and winter a great many hogs died with cholera, and the disease still lingers in the counties of Bureau, Iroquois, Mercer, Brown, Saline, White, Cumberland, DeWitt, Douglas, Greene, Hancock, Edwards, Menard, Morgan, Piatt and Scott.

The average condition of hogs in the northern part of the State on May 1 was 98 per cent.; in central Illinois it was 97, and in southern Illinois 92 per cent.

SHEEP.

Only 83 per cent. of the number of sheep reported on May 1, 1894, are on hand at the same date this year. The largest number are in northern Illinois, 88 per cent.; in the central division 81 per cent. are reported, and 79 per cent. in the southern division.

No complaints of disease have been made, and the May 1 condition is 98 per cent. of an average.

FRUIT.

There is very rarely so large an amount of fruit bloom of every kind as there has been this spring. Every tree and bush was a mass of bloom, and the orchards looked as if a mantle of snow had fallen upon them.

With the exception of blackberries and raspberries, which are said to be winterkilled in some localities, there promises to be a most abundant crop of all small fruits, and while the peach crop will probably not be over half as large as usual, other tree fruits will, in all likelihood, be more plentiful than for a number of years past.

Just at present rain is needed to develop the strawberry crop, which without it will be cut short.

INSECT INJURY TO CROPS.

Mention has been made elsewhere in this report, of the presence of old chinch bugs in the wheat fields, in unusual numbers for so early in the season, so it is unnecessary to go over that ground again. Hessian fly was reported in the wheat in Randolph and Clark counties, and cut worms have injured the clover in Hardin county. In Pope county cut worms are injuring the early planted corn and potatocs.

WAGES PAID FARM HANDS.

The supply of farm hands this spring is 2 per cent. above the average. In northern Illinois the surplus is 3 per cent., in central Illinois 2 per cent. and in the southern division of the State 1 per cent. Unfortunately for the farmers a large number of these men are laborers from the cities, who have been thrown out of work at their trades, and forced to hunt work in the country, and as comparatively few of them understand farm work, they are not desirable hands.

The wages paid to farm hands vary very little from year to year in the same section of the State.

The average wages paid farm hands during the past sixteen years in the three grand divisions of the State, are given in the following table:

	PER I	DAY.	PER MO	ONTH.
Division,	With board.	Without board.	With board.	Without board.
Northern Central Southern	85	\$1 30 1 10 90	\$19 75 17 95 - 14 60	\$27 65 24 75 20 70
Average	\$0.85	\$1 10	\$17 45	\$24 35

The wages paid farm help in the three divisions of the State, during the past sixteen years, is given in the following tables:

NORTHERN DIVISION.

	PER I	DAY.	PER MO	ONTH.

AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is much needed to enable the producer and the public to decide as to the extent of the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality of growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent., is recorded 110; a decrease of five per cent. Is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is is not pretented that these reports will exactly concide with the official assessors' return, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years, will be found to closely approximate the assessors' returns.

W. C. GARRARD,

Secretary.

ILLINOIS CROP REPORT,

---FOR----

JUNE 20, 1895.

Synopsis of the Reports of Correspondents Upon the Acreage and Condition of the Growing Crops, Etc.

ILLINOIS STATE BOARD OF AGRICULTURE, SPRINGFIELD, June 20, 1895.

The information contained in this circular was obtained from the reports of correspondents mailed to this office the twentieth of June.

The correspondents are, as a rule, representative farmers of extended experience who are deeply interested in the accuracy of the reports made by this Department.

A large number of the correspondents have been reporting to this Department for the past nineteen years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number nearly six hundred, and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles,) and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

CORN.

In spite of the drought, cut worms and chinch bugs, corn at this date is very promising, and if we get enough rain there is every prospect for a good crop.

Much of the corn was planted early, but was cut down by the May freeze and cut worms, so that a large proportion of it had to be replanted, some of it the second time. Cut worms have been more numerous this season than for many years past, and have done a good deal of damage, but the greatest menace of corn this season is the chinch bug, which prevails in unusually large numbers and has already commenced its depredations in corn fields adjoining wheat, some of the corn fields already looking brown and scorched. It is believed that nothing but heavy rains, and plenty of them, can have much effect on these pests now, but farmers should nevertheless use every effort to destroy them, as the results of such wisely directed efforts will probably be in evidence next year if not this.

In Mercer county the striped gopher has done a good deal of damage this year.

The seed used this year was excellent, a fact which is patent in the fine condition of the growing crop at this date. There has been enough rain in most sections to keep the soil in splendid workable condition, and consequently it is unusually free from weeds.

NORTHERN DIVISION.

The area devoted to corn in this section of the State this year is one per cent. larger than in 1894, when a little over 3,000,000 acres was planted. The June 20 condition of the crop was 93 per cent. of an average.

The quality of the seed used in this division was fully up to an average.

The earliest date on which corn appeared above ground was April 20, in Mercer county.

CENTRAL DIVISION.

A 4 per cent. larger area was planted to corn in central Illinois this year than last, when nearly 2,710,000 acres was planted.

The condition of the crop at this date is 90 per cent. of an average, and the seed used was 1 per cent. better than usual.

Corn appeared above ground on April 10 in Jersey and Vermilion counties.

SOUTHERN DIVISION.

The area of corn planted in this division this year is 2 per cent. larger than in 1894, making the 1895 area over 1,000,000 acres.

The June 20 condition of the crop is not nearly so good as in northern and central Illinois, being only 86 per cent. of any average. The quality of the seed used in this section was 98 per cent. of an average, not so good as was used in the other divisions of the State.

BROOM CORN.

Six per cent. smaller area is reported in broom corn this year than last. Even in oles county, the principal broom corn-growing county of the State, there is a reduction n area of 2 per cent. Douglas county reports an increase in area of 1 per cent., and Clay and Madison counties of 5 per cent. each.

The June 20 condition of this crop in northern Illinois is 84 per eent. of a seasonable average; in central Illinois it is 93 per cent. and in the southern division of the State 82 per cent.

SORGHUM.

The area devoted to sorghum this season is not quite so large as last year, when 11,170 acres were planted. The greatest deficiency occurs in central Illinois, where the area as compared with 1994 is but 88 per cent.

The June 20 condition of the crop is 90 per cent. of a seasonable average in the northern division of the State, but only 86 per cent. in central and southern Illinois.

WINTER WHEAT.

The June 20 condition of winter wheat is 35 points below that of May 1, and indicates that but little, if any, more than half a crop will be harvested.

The continued dry weather, which has prevailed ever since the wheat was sowed last fall, has contributed largely to this result, but to this must be added the ravages of both Hessian flies and chinch bugs, which have been very serious

In northern Illinois the June 20 condition is 67 per cent. of a seasonable average, but in both the central and southern divisions of the State it is only 50 per cent. of an average.

Harvest has commenced in most of the winter wheat counties in the State, but no threshing has been done as yet, though it is known that the yield will be very small.

In Woodford county the wheat promises so poorly that some farmers have turned their stock on it, and will not attempt to cut it.

Although drought has prevailed almost universally over the State, two counties, Pulaski and Union, report that the recent rains have made it too wet to harvest.

SPRING WHEAT.

Two-thirds of a crop of spring wheat is anticipated in northern Illinois. The area is 9 points less than last year.

OATS.

The present condition of oats is the poorest reported for a long time, the depreciation since May 1 being 28 points. In the northern division of the State the June 20 condition is only 56 per cent. of a seasonable average; in the central division it is 48 per cent. and in southern Illinois 71 per cent. Although the chinch bugs have done a great deal of damage to oats, the drouth has retarded their growth so such an extent that many fields are too short to cut except with a mower, and many fields will not be cut at all. Some farmers are already pasturing stock on their oat fields.

RYE.

This, as well as all other crops, has suffered from insects and drought during the past six weeks, the June 20 condition being but 65 per cent. of an average. In both northern and central Illinois the average condition is 62 per cent. and in the southern division of the State 70 per cent.

BARLEY.

This crop has depreciated 13 points since May 1, the June 20 condition being 70 per cent. of an average in the northern division of the State, 87 per cent. in the central and 90 per cent. in the southern division.

MEADOWS.

A more discouraging condition of meadows at this date has rarely been reported, although they have steadily failed for the last three years. The continued dry weather has militated against them, and this spring the insect pests have also injured them severely, and the result is that not over a third of an average yield per acre may be expected. Many meadows will not pay for the cutting.

The average condition in northern Illinois is 37 per cent., in central Illinois 27 per cent. and in the southern division 52 per cent.

The cut worms injured meadows in a good many localities, and in Adams the army worms entirely cleared off two meadows. Chinch bugs have also done a good deal of damage to grass.

CLOVER.

Clover has withstood the drought and other drawbacks better than timothy, and the June 20 condition is favorable for 58 per cent. of an average yield per acre. The most

encouraging report comes from southern Illinois, where 71 per cent. of an average yield per acre is anticipated. In northern Illinois the June 20 condition is 52 and in central Illinois 50 per cent.

The area in clover this season is 26 per cent. less than last year in the northern division of the State; 23 per cent. less in the central and 18 per cent. less in the southern division.

HUNGARIAN AND MILLET.

The area devoted to these crops this season equals that of last year in northern Illinois, but is 13 per cent. smaller in the central division and 17 per cent. less in the southern division.

PASTURES.

A somewhat more favorable condition of pastures than of meadows exists, but still the June 20 condition is but little over half what it should be at this date, being but 53 per cent. of an average. The condition in the northern division of the State is 53 per cent.; in the central division 43, and in southern Illinois 63 per cent.

The question of keeping stock is becoming a very serious one in some sections, the pasturage being so very scant, and the hay prospect so poor.

IRISH POTATOES.

In northern Illinois the area in Irish potatoes is but one per cent. less than in 1894; in the central division of the State the decrease is 9 per cent. and in the southern division 4 per cent.

Less than two-thirds of an average yield per acre of Irish potatoes is expected this season. The June 20 condition is encouraging for 76 per cent. of an average yield per acre in the northern portion of the State and 70 per cent. in the southern, while in central Illinois only 48 per cent. of an average yield per acre is anticipated.

Potato bugs have done considerable damage in the counties of La Salle, Ogle, Stephenson, Will, Adams, Hancock, McLean, Tazewell, Effingham and Lawrence.

SWEET POTATOES.

There is a decrease of 5 per cent. since last year in the area devoted to sweet potatoes in northern Illinois, and in the central and southern portions of the State the deficiency is 11 per cent.

The most encouraging reports on this crop are from the northern division of the State, where the June 20 condition is 82 per cent. of a seasonable average. In the central division it is 72, and in the southern division 75 per cent.

FLAX.

But two counties in the State report on flax this year. McHenry county gives both the area and condition as a full average, and Will reports a shortage of 8 per cent. in the area, but the condition 100.

TOBACCO.

The area devoted to this crop in northern Illinois this year as compared with last is 84 per cent.; in central Illinois it is 87 per cent. and in the southern division of the State 80 per cent.

The June 20 condition is 85 per cent. in the northern division, 100 in the central and 71 per cent. in the southern division.

FIELD BEANS.

In each of the three grand divisions of the State the area is 3 per cent. less than in 1894. The condition of the crop is reported as 84 per cent. of an average in northern Illinois, 88 in central, and 82 per cent. in the southern division of the State.

FIELD PEAS.

In northern Illinois the area devoted to this crop is 11 per cent. less than last season; in central Illinois it is about the same, and in southern Illinois there is an increase in area of 5 per cent.

FRUIT.

Notwithstanding the immense amount of bloom on fruit this spring the yield of the earlier species has not been nearly so large as was anticipated. Much of the early fruit was injured beyond redemption by the May freeze, but some of the later-ripening fruit was not far enough advanced at that time to be seriously affected.

CHERRIES.

A little over two-thirds of an average yield of cherries was produced. The yield innorthern Illinois was 57 per cent. of an average, but it was much larger in the central and southern divisions of the State, where it was 75 and 72 per cent. of an average respectively.

STRAWBERRIES.

Strawberries in northern and central Illinois amounted to very little, only 36 per cent. of an average yield being produced in the former and 32 per cent. in the latter section. In the southern division of the State 67 per cent. of an average yield was produced.

RASPBERRIES.

In the northern division of the State the raspberry crop was less than half as large as usual, 45 per cent., and in the central division it was even smaller, only 35 per cent. of an average crop being obtained, but in southern Illinois 63 per cent. of an average yield was produced.

Raspberries were entire failures this season in Peoria, Putnam and Vermilion counties, and very nearly so in many other sections.

GOOSEBERRIES.

Almost two-thirds of an averave yield of gooseberries was produced this season, 65 per cent., and the crop was about the same in each of the three grand divisions.

Currant worms injured gooseberries in Lee county.

CURRANTS.

In the northern grand division of the State the yield of currants was 59 per cent. of an average; in the central it was 61 and in the southern division 62 per cent.

VINEYARDS.

While the area devoted to vineyards has not materially decreased in the past year, only 6 per cent., the yield of grapes will be exceedingly small.

The most discouraging condition is reported in the northern part of the State where a number of counties report the grape crop a total failure, and where the division average is but 20 per cent.; in central Illinois the June 20 condition is 29 per cent. of an average, and in southern Illinois a little more than half a crop, 57 per cent. is expected.

In Lee county the vines have bloomed the second time.

In Pulaski county grapes are rotting from excess of rain.

YOUNG LIVE STOCK.

PIGS.

The number of young pigs reported this season is 10 per cent. smaller than usual, and their June 20 condition is 98 per cent. of an average in northern Illinois, 94 per cent. in central and 92 per cent. in the southern division of the State.

LAMBS.

Only 85 per cent. of the usual number of lambs is reported this season. Their average condition is 96 per cent.

CALVES.

92 per cent. of the average number of calves were reported this season, and their June 20 condition is 97 per cent. of an average.

COLTS.

The low prices brought by horses the last two or three years has tended to reduce the number raised, and less than two-thirds (62 per cent.) as many colts as usual were foaled this spring. Their average value at weaning time was \$19. Six per cent. of the number foaled are lost prior to weaning time. The average cost of service of stallions is \$8.

The June 20 condition of colts is 96 per cent. in each division of the State.

WOOL.

In northern Illinois the wool clip of 1895 is 13 per cent. smaller than that of 1894; in the central division of the State it is 18 per cent. less, and in the southern division 84 per cent. less.

INSECT INJURY TO CROPS.

The depredations of insects have been more varied and serious this year than for many seasons past.

Early in the year the Hessian fly did considerable damage to the growing wheat, and later in the season the chinch bugs put in their appearance. Rarely have these pests been more numerous, or begun their ravages so early. Scarcely a county in the State but has suffered from their presence. They attacked the wheat, oats and grass, and have gone into the corn fields where the wheat has been cut, and even at this date some fields have suffered severely from them. It seems as if the only salvation of the corn, which now promises well except for this threatened danger, lies in plenty of hard rains.

Cut worms were more numerous than usual this year, and a great deal of corn on sod ground had to be replanted on their account.

In Carroll and Grundy counties an unknown insect has been working at the roots of the corn and doing considerable damage.

The wire worm is reported as injuring corn on sod ground, and in low places in Kane and Stark counties.

Grub worms have been at work in McHenry and Mercer counties, and grasshoppers are abundant in Stark county.

Currant worms injured the gooseberries in Lee county, and potato bugs are plentiful in LaSalle, Stephenson, Will, Woodford, Ogle, Adams, Hancock, McLean, Tazewell, Effingham and Lawrence counties.

In Adams county army worms have entirely destroyed two meadows and injured others.

AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality of growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent., is recorded 110; a decrease of five per cent. is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is is not pretented that these reports will exactly concide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years, will be found to closely approximate the assessors' returns.

W. C. GARRARD,

Secretary.

ILLINOIS CROP REPORT,

—FOR—

AUGUST 1, 1895.

Synopsis of the Reports of Correspondents Upon the Condition of the Growing Crops, Etc.

ILLINOIS STATE BOARD OF AGRICULTURE, SPRINGFIELD, August 1, 1895.

The information contained in this circular was obtained from the reports of correspondents mailed to this office the first of August.

The correspondents are, as a rule, representative farmers of extended experience who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past nineteen years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The correspondents number nearly six hundred, and are so distributed over the State as to fairly represent each locality.

The State covers such an extended area from north to south (385 miles,) and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

WHEAT.

Of the 1,989,137 acres seeded to wheat this season, 15 per cent., or 302,610 acres was destroyed, principally by chinch bugs, leaving 1,686,527 acres for harvest.

In northern Illinois the loss was 13 per cent., in central Illinois 16 per cent. and in the southern division of the State 15 per cent.

The average yield per acre was but 11 bushels, and the total yield of 18,093,503 bushels is the smallest wheat crop raised in the State since 1890.

The average price per bushel of 59 cents is much higher than the ruling prices of the last two years. The total value of the crop is \$10,706,913.

The following table gives the area, yield and value of the wheat crop of the State during the last thirty-six years:

WHEAT-(Spring and Winter.)

Year.	Number of acres.	Average yield per acre-bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	+Cost of production per acre.	Total cost of pro- duction.	Profit.	Loss.

11860-1881 estimated same as reported for 1880.

The quality of the wheat this season is not so good as might be wished. The heads did not fill well in many localities on account of the chinch bugs, and the rains after harvest, which were just what was wanted for corn, caused the wheat in the counties named to sprout in the shock: White, Pulaski, McDonough, Hancock, Grundy, Henderson and Adams. In Lake county a good deal of the spring wheat was cut for hay, as it was thought it would not pay for harvesting.

SURPLUS WHEAT.

Should there be as large an area seeded to wheat this year as last it will require 2,652,183 bushels, allowing 1½ bushels per acre for seed. Allowing 4 bushels per capita for the food for the inhabitants of Illinois during the year, and taking the census of 1890 as a basis, we will consume 15,271,328 bushels, thus leaving but 139,992 bushels of the 1895 crop for export.

OATS.

Rarely does the oat crop of Illinois come so near being a failure as this year.

The area seeded, 3,647,626 acres, was 223,204 acres larger than in 1894, but the combined effects of chinch bugs and drouth reduced the yield so that but 24 bushels per acre were harvested. Some farmers did not cut their oats at all, but used them for pasture, while others cut them for hay. Late oats odged badly in parts of Lee county.

In Champaign county there is a second crop of oats which will be used for pasture.

The largest average yield per acre was in the northern division of the State, where 25 bushels per acre was harvested. In central Illinois the average yield was 22 bushels, and in the southern division 21 bushels per acre. The total oat crop of the State amounted to 86,616.615 bushels.

The ruling price of oats this year, 20 cents per bushel, is unusually low, and taken in connection with the small yield, the value of the crop is the least since 1880. The value of the 1895 oat crop is but \$17,273,961.

The following table gives the area, yield and value of the oat crop of the State during the past thirty-six years:

Year.	Number of acres.	Average yield per acre-bushels.	Bushels produced.	Price per bushel-cents.	Total value.	Value per acre.	tCost of production per acre.	Total cost of production.	Profit.	Loss.

†1860-1881 estimated same as reported for 1880.

A table published elsewhere in this report gives the area, yield and value of the oat crop in each county in the State this year.

RYE.

There was a slight increase in the area seeded to rye this year, 150,213 acres being reported by the assessors.

The average yield per acre was 14 bushels, and the total yield 2,089,297 bushels.

The average price per bushel, 46 cents, is higher than that obtained in 1893 and 1894, and the total value of the crop was \$970,086.

The following table gives the area, yield and value of the past thirty-six rye crops grown in the State.

A table published elsewhere in this report gives the area, yield and value of rye in each county in the State.

BARLEY.

The decrease in the area of barley this year as compared with 1894 is 2,244 acres. The 1895 area is 18,230 acres. The average yield per acre of 17 bushels is also below the normal, so that the 1895 barley crop is the smallest on record. The total yield of barley this year was 303,503 bushels.

The average price per bushel on August 1 was 38 cents, and if the entire crop had bee
sold at that price it would have returned to the producer \$115,536.

The following table gives the area, yield and value of the past thirty-six barley crops produced in this State:

Year.	Number of acres. Average yield per acre—bushels.	Bushels produced.	Price per bushel.	Total value.	Value per acre.	+Cost of production per acre.	Total cost of production.	Profit.	Loss,
1860. 1861. 1862. 1863. 1864. 1865. 1864. 1865. 1867. 1868. 1867. 1868. 1870. 1871. 1872. 1873. 1873. 1874. 1875. 1878. 1879. 1889. 1889. 1889. 1889. 1889. 1889.	45,058 23 45,055 23 32,657 36 54,755 22 50,520 22 38 41,510 25 41,663 22.3 37,829 25.8 59,805 20.8 111,600 20 80,509 25.5 79,455 27.1 113,281 25.6 124,293 17.7 113,281 25.6 29,301 24,293 17.7 14,982 18.5 29,301 24,293 17.7 26,8.5 25,494 22,3 44,664 616 47,310 26 46,646 16 37,310 26 40,088 30 39,086 23 39,086 23 39,086 23 39,086 23 39,086 23 26,375 25 23,361 21 19,916 19 20,474 25 18,230 17	1,058,981 1,037,753 996,000 976,000 1,250,000 2,053,000 2,073,000 2,280,000 2,052,000 2,900,000 2,200,000	\$0 49 26 68 95 37 568 1 28 1 36 69 95 95 95 95 95 95 47 56 46 59 50 47 52 45 41 42 33 49 41 45 42 38	\$507, \$03 269, 446 705, 390 1,444, 790 1,568, 362 600, 943 705, 672 1,274, \$80 1,1327, 360 1,125, 900 1,140, 156 2,166, 900 1,140, 156 2,366, 900 1,100, 900 396, 182 2,366, 550 892, 328, 641, 951 398, 944 265, 951 398, 944 265, 951 398, 944 265, 951 398, 344 265, 764 603, 215 511, 994 404, 805 511, 994 405, 764 603, 215 511, 994 202, 489 204,	5 97 21 60 20 81 31 04 11 91 17 00 28 52 35 08 18 81	\$10 55 10 55	\$475,362 475,362 344,521 577,876 532,986 437,930 471,195 399,096 630,974 1,177,380 1,177,380 1,179,370 837,944 1,045,821 1,258,636 309,125 268,972 407,271 331,066 364,695 278,298 272,159 278,298 272,159 474,845 389,286 407,286 377,544 254,989 274,199 224,482 387,544 254,989 274,199 274,199 274,199 274,199 275,198 278,298 277,198 278,298 277,198 278,298 277,198 278,298 277,198 278,298 277,198 278,298 277,198 278,298 277,544 254,999 274,482 377,544 254,999 274,482 377,544 254,999 274,482 377,544 278,298 278,298 278,298 279	566, 914 1,035, 376 68,949 267, 742 803, 685 928, 264 494, 026 206, 460 218, 190 302, 206 1, 120, 179 731, 804 834, 886	\$205,916 211,291 78,378 3,021

†1860-1881 estimated same as reported for 1880.

Ý,

In a table published elsewhere in this report will be found the area, yield and value of the barley crop of the State by counties.

HAY.

With a somewhat smaller area in meadows this year than last, the hay crop of the State is the smallest on record.

Reports received early in the season indicated that the hay crop would be very light, but it was hoped it would turn out better at harvest than was expected.

The area in meadows this season was 2,540,156 acres, and the total yield of hay was 1,401,720 tons, making the average yield per acre but little over half a ton...55 of a ton.

In accordance with the general rule, the price of the crop increased as the quantity decreased, and the ruling price on August 1, \$10.25 per ton, has not been exceeded since 1574. The total value of the crop at this price would amount to \$14.359,764.

In Marshall and Cass counties the crop is reported as an entire failure, and many farmers throughout the State did not cut their hay. The rains during July benefited

meadows greatly, and in Marshall county they have sprouted and are growing so well that it is thought they may be able to cut a partial crop in September. Even if this should not be possible, meadows generally will make some pasture this fall.

The following table gives the area, yield and value of the past thirty-six hay crops of the State:

Year.	of acres	Average yield per acre-tons. Tons produced.	Price per ton.	Total value.	Value per aere.	†Cost of production per acre.	Total cost of production.	Profit.	Loss.

†1860-1881 estimated same as reported for 1880.

The area, yield and value of the hay crop of 1895 for each county in the State is given in a table published elsewhere in this report.

CORN.

While the yield of most of the cereals this season has been small, there is compensation in the prospect for corn, which never promised better at this date than this year, in spite of the enormous quantity of chinch bugs which have infested the fields, and are still present in immense numbers.

The crop is too far advanced now to be ruined by these pests, but unless we have timely rains they may interfere with the ears filling as well as they should.

The season has been exceptionally favorable for the growth and cultivation of corn, the weather being dry early in the season, and the ground in excellent condition for planting and working the crop, thus preventing the growth of weeds. During July there

were frequent raiss over almost the entire State, giving sufficient moisture just when it was needed to insure rapid and steady growth of the plant. The heavy winds which accompanied some of the rains caused a good deal of corn to tangle and blow down, but most of it recovered its position in a few days. This state of affairs is reported from the counties of Johnson, Pope, Saline, Gallatin and Woodford. Considerable smut in corn is reported from Schuyler county, and in Scott there is some complaint of root lice. Grub worms have injured corn in some localities.

In a few counties the growth of corn has been too luxuriant and it is shooting too much, more ears forming than the stalks can mature. This condition is reported in McLean and Adams counties.

In Knox county corn suckered badly.

The August 1 condition has never been surpassed in northern and southern Illinois, where it is reported as 5 points above the average, and in central Illinois, where it is 2 points above the average, the condition has been exceeded but once in the past fourteen years, in 1888.

The area devoted to corn this year is 2 per cent. larger than in 1894, when 6,705,486 acres were reported by assessors. The corn area this year is 6,857,727 acres.

Should the favorable weather continue, and there be no killing frosts early in the season, the 1895 corn crop bids fair to be one of the memorable crops in the agricultural history of Illinois.

BROOM CORN.

The condition of this crop has improved a great deal since the report of June 20, the August 1 condition being 91 per cent. of a seasonable average in the northern division of the State, 99 per cent. in the central division and 96 per cent. in southern Illinois.

The State average for this date is 98 per cent.

SORGHUM.

In common with other crops of this family sorghum has materially improved in condition during the last six weeks, the August 1 condition being 92 per cent. of an average.

In northern and central Illinois the condition is 95 per cent. of an average, and in the southern division 88 per cent.

PASTURES.

A much more encouraging condition on pastures prevails at this date than for a lon time past, the improvement the State over, since June 20, being 29 per cent. The August I condition in northern Illinois is 74 per cent. of an average, in central Illinois 77 per cent., and in the southern division of the State 95 per cent. The State average at this date is 82 per cent.

The July rains, which were so beneficial to corn and meadows, were very grateful to pastures also, which responded to their kindness in renewed growth.

If farmers can resist the temptation to turn stock on pastures before they are well established, there will probably be an abundance of fall feed.

The area devoted to pastures this year is 4,579,814 acres, a decrease of area in the past year of 473,138 acres.

IRISH POTATOES.

The coondition of Irish potatoes on August 1 is encouraging for a little over three-fourths (78 per cent.) of an average yield per acre, an improvement of 14 per cent. since June 20.

In northern Illinois 86 per cent. of an average yield per acre is expected, and in the southern division of the State 85 per cent. In central Illinois there has been a depreciation of 5 per cent. since our last report, and the August 1 condition is but 64 per cent. of a seasonable average.

SWEET POTATOES.

At this date sweet potatoes promise 88 per cent. of an average yield per acre. In the northern division of the State the August 1 condition is 90 per cent. of a seasonable average, in the central division 85 per cent. and in southern Illinois 91 per cent.

BUCKWHEAT.

The area devoted to buck wheat this season is 4 per cent. larger than in 1894, when 3,151 acres was seeded. In northern Illinois the area is 9 per cent. less than last year, and in central Illinois the increase was but 2 per cent., but in the southern division of the State 20 per cent. larger area is reported, many counties in this section reporting a largely increased area.

The August 1 condition of the crop for the State is 95 per cent. of a seasonable average, being 95 per cent. in the northern portion of the State, 94 per cent. in the central and 99 per cent. in southern Illinois.

TURNIPS AND OTHER ROOT CROPS.

A few counties in the State report an increased area in these crops, but the State average is but 98 per cent. as compared with last year. The area in northern Illinois is 95 per cent., in central Illinois 99, and in southern Illinois 98 per cent.

The August 1 condition of the crops is 93 per cent. of an average in northern Illinois, 94 per cent. in central, and 97 per cent. in the southern grand division.

TOBACCO.

There has been a slight depreciation in the condition of tobacco during the past six weeks in northern and central Illinois, where the August 1 condition is 86 and 92 per cent. respectively, but in the southern division of the State it has improved over 20 per cent., and the prospect is encouraging in that section for 93 per cent. of an average yield per acre.

CASTOR BEANS.

The condition of castor beans on August 1 was encouraging for 86 per cent of an average yield per acre in northern Illinois, and for 96 per cent. in the southern division of the State. No report was made on this crop from central Illinois, very little attention being paid to it in that section.

FIELD PEAS.

The August 1 condition of field peas is 85 per cent. of a seasonable average in northern Illinois and 87 per cent. in the central division of the State. In southern Illinois 101 is reported as the condition. In Richland county field peas and beans were planted on ground where corn was killed too late for re-planting.

FIELD BEANS.

The condition of this crop is a little better than peas in the northern and central divisions of the State; where it is 95 and 94 per cent. of a seasonable average respectively. In southern Illinois it is 100 per cent., and the State average is 97 per cent.

FRUIT.

APPLES.

The condition of apples at this time is encouraging for 79 per cent. of an average crop, and that means a much larger crop than has been gathered for a number of years past, when the apple crop of the State was a comparative failure.

The poorest condition prevails in the northern section of the State, where the August 1 condition is but 49 per cent. In central Illinois the condition is 83 per cent., and in the southern division of the State the condition is 5 per cent. above a seasonable average.

PEACHES.

But little more than half a crop—57 per cent.—of peaches is promised this year. In northern Illinois their August 1 condition is 42 per cent., in central Illinois 44 per cent., and in the southern division of the State 79 per cent. In Clinton and Union counties peaches are said to be rotting.

PEARS.

In the northern division of the State the August 1 condition of this fruit is 56 per cent. of a seasonable average, in the central division 76 per cent., and in the southern division 95 per cent.

The State average is 78 per cent.

PLUMS.

The most favorable report on plums comes from southern Illinois, where the August 1 condition is given as a full average.

In central Illinois the condition is 93 per cent., and in the northern grand division 65 per cent.

The average State condition of this fruit is 87 per cent.

Menard county reports the heaviest plum crop for years.

GRAPES.

This fruit suffered severely by the May freeze, which came just when it was in bloom in many sections of the State. While it recovered to some extent from this disaster, the grape product of the year now promises to be less than half as large as usual—only 46 per cent. The most discouraging report comes from northern Illinois, where the August 1 condition is encouraging for but 35 per cent. of an average crop; in the central division the present prospect justifies the expectation of 40 per cent. of an average crop, while in southern Illinois nearly two-thirds—64 per cent.—of an average crop is expected.

BLACKBERRIES.

Many blackberry vines were winter-killed last season, and consequently the yield this season was unusually small, only 37 per cent. of an average. In many counties the crop is reported as an entire failure.

The yield in northern Illinois was 41 per cent. of an average, in central Illinois 27 per cent., and in southern Illinois 44 per cent.

QUINCES.

The August 1 condition of this fruit is 43 per cent. of a seasonable average in the northern division of the State, 47 per cent. in the central division, and 74 per cent. in the southern division.

The average condition of the entire State at this time is 61 per cent.

LIVE STOCK.

With the exception of hog cholera, which is reported from a number of counties, there is very little complaint of disease among live stock. Cholera is reported from Morgan, Moultrie, Pike, Schuyler, Vermilion, Edwards, Woodford, Macon, Coles, Douglas, Fulton, Greene, Hancock, Knox, Bureau, Henderson, Henry, Marshall, Mercer, Stark, Warren, Johnson, Wabash, White and Williamson counties.

Distemper has prevailed to some extent in Schuyler, Morgan, Menard, Cumberland, Champaign, Christian and LaSalle counties. A few horses have died from catarrhal fever in Morgan county, and in Macon there has been some influenza among horses. In Winnebago county there has been some loss of cows from milk fever, and some cases of "lumpy jaw," so-called, are reported from Lee county. There have also been some cases of black scour in lambs in Stark county.

Flies have been unusually troublesome to stock in Lee county this season, and a good many horn flies are reported from both Lee and Knox counties.

INSECTS.

While the corn fields south of central Illinois seem to teem with chinch bugs, they did their principal damage to both corn and wheat earlier in the season, and there is little to note now beyond what is said in the corn report.

In McLean and Menard counties grub worms have done some injury to corn. In Pope county a bug of some kind is eating the Colorado beetles. It is hoped that its appetite for this food will not soon be satisfied.

DRAIN TILE.

The reports on drain tile laid during 1894 are rather meagre, especially in the southern division of the State, but so far as can be ascertained 21,982,887 feet were laid in Illinois last year. Of this amount over half or 15,735,136 feet were laid in northern Illinois, 6,030,312 feet in central, and but 217,439 feet in the southern division of the State.

The total amount of drain tile laid in State is 666,669,066 feet.

The average number of feet per acre of cultivated ground is 34 in the northern division of the State, 29 in the central and 1 in the southern division.

AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality of growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent., is recorded 110; a decrease of five per cent. is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is is not pretented that these reports will exactly concide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years, will be found to closely approximate the assessors' returns.

W. C. GARRARD,

Secretary.

ILLINOIS CROP REPORT,

—FOR—

DECEMBER 1, 1895.

Synopsis of the Reports of Correspondents Upon the Condition of the Growing Crops, Etc.

ILLINOIS STATE BOARD OF AGRICULTURE, SPRINGFIELD, December 1, 1895.

The information contained in this report as to acreage of crops and number of head of live stock was obtained from the reports of assessors made to this Department as required by law.

The data in regard to yield per acre, price of crops and value of crops and live stock was obtained from crop correspondents, who number nearly six hundred, and represent every section of the State.

The correspondents are, as a rule, representative farmers of extended experience who are deeply interested in the accuracy of the reports made by the Department.

A large number of the correspondents have been reporting to this Department for the past nineteen years, and their estimates, for a term of years, when compared with the subsequent official returns made by assessors, have confirmed the superior judgment and conservative character of the reporters.

The State covers such an extended area from north to south (385 miles,) and the conditions are so likely to be influenced by climate, soil, local storms, etc., that it has been found advisable to divide the same into three divisions in reporting the condition and yield of crops.

WINTER GRAIN.

WHEAT:

The reports on winter wheat indicate that the 1896 crop will not come up to the avarage. The prevalence of chinch bugs last summer, and the extremely dry weather in the fall, discouraged farmers from seeding so large an area as last season.

The area seeded this fall, as compared with last year, is 86 per cent., giving a total area of 1,685,395 acres.

Of this amount 63,026 acres is in northern Illinois, 703,449 acres in the central, and 918.320 acres in the southern division of the State.

The December 1 condition of the growing crop is but little better than three-fourths of a seasonable average. The drought which prevailed at seeding time retarded germination, and until the November rains the fields looked very bare. These rains were a great benefit to wheat, but it is not so evident now as it will be in the spring, when the plant begins to grow.

The condition of the crop in the northern division of the State is 86 per cent. of an average, 78 per cent. in the central division and 74 per cent. in the southern division, which includes more than half of the wheat area of the State.

Hessian fly is reported in the early wheat in the counties of Clark, Fulton, Mason, Fayette and Randolph.

In Henderson county the ground is said to be full of chinch bugs, which are injuring the wheat.

RYE.

There is a deficiency of 17 per cent. in the area of rye sowed this fall as compared with last, the area reported in northern Illinois being 91,226 acres, in the central division 22,837 acres and in the southern division 9,250 acres, a total acreage of 123,313 acres.

The December 1 condition of rye is a few points better than wheat, being 88 per cent. of a seasonable average in northern Illinois, 83 per cent. in central and 79 per cent. in the southern division of the State. The State average for this crop is 83 per cent.

Rye was badly damaged by chinch bugs in Carroll county and did not make fall pasture.

CORN.

The shortage in the wheat crop this year is more than compensated for by the immense yield of corn, which has been exceeded but four times, in 1875, 1877, 1879 and 1888.

On the reported area of 6,922,921 acres, 267,423,008 bushels was produced, an average of 39 bushels per acre. Both the largest area and yield were in the northern division of the State, 125,870,299 bushels being raised on 3,041,586 acres, or 41 bushels per acre. In central Illinois 2,849,194 acres produced 111,543,941 bushels, or 39 bushels per acre, while on an area of 1,032,141 acres southern Illinois produced but 30,008,768 bushels, an average of but 29 bushels per acre.

The large yield lowered the price of corn, which averaged but 21 cents per bushel on December 1, and was very uniform throughout the State. Had the entire crop been sold at this price, the producers would have received \$57,738,225, of which \$23,157,189 would have gone to northern Illinois, \$22,985,176 to central and \$6,595,860 to the southern division of the State.

The quality of the corn harvested this fall is 2 points above the average in the northern division of the State, but 8 points below in both of the other divisions, where the chinch bugs were more numerous. In these sections there is considerable light, chaffy corn, and some that is loose on the cob. The long, dry fall was favorable to the ripening and gathering of corn, and as a rule it was safely housed before the severe rains set in, but in some localities in southern Illinois a good deal is reported still in the field.

The area, yield and value of the corn crop of the State for the past thirty-six years is given in the following table:

YEAR.	Number of Acres.	Average yield per acre.	Bushels produced.	,	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit.	Loss.

BROOM CORN.

The area devoted to broom corn this year, 25,369 acres, was 2,673 acres less than the 1894 area, and the average yield per acre of 681 pounds is slightly below the yield of last year. The total yield was 17,286,000 pounds.

The average price obtained for the crop, \$38 per ton, is the lowest ever known. The total value of the crop at the ruling price December 1, was \$332,876.

The following table gives the area, yield and value of the broom corn crop of Il linois since 1876:

YEAR.	Acreage.	Av. yield per acre— lbs.	Total yield— lbs.	Price per ton.	Value . of crop.
1877 1878 1879 1880 1881 1881 1882 1883 1884 1885 1889 1890 1899 1899 1899 1899 1899 1899	14,566 18,258 17,664 18,652 17,887 48,036 33,922 25,173 17,382 37,633 35,022 41,807 29,398 27,591 15,875 18,333 27,358 28,042 25,369	614 632 775 1,437 225 1,000 750 666	11,218,168 11,161,238 14,457,156 25,709,250 9,693,187 33,922,000 16,228,000	49 50 86 75 77 40 128 50 80 00 90 00 72 00 94 00 57 00 68 00 117 00 94 00 57 00	277, 645 454,195 459,447 1,651,739 387,680 1,481,710 585,572 434,932 776,963 973,864 797,245 567,053 904,311 532,985 506,699 501,678

SORGHUM.

The area in sorghum this year, 10,453 acres, is 717 acres less than the area of 1894. Two-thirds of this or 6,983 acres, is in the southern division of the State, Jasper county reporting 721 and Massac 500 acres. In central Illinois Adams county reports 276 and Menard 247 acres. The yield per acre of 82 gallons is somewhat above the average, and the total yield is 858,383 gallons.

The ruling price per gallon of 30 cents is the lowest ever noted, and the value of the entire crop at this price is but \$261,241.

The following table gives the area, yield and value of the sorghum crops produced in the State since 1876:

YEAR.	Acreage.	Av. yield per acre— gallons.	Total number of gallons.	Price per gallons.	Value of erop.
1977 1878 1879 1880 1881 1882 1883 1884 1884 1886 11886 11886 11890 11891 11890 11891 11892 11893 11894	19,335 14,638 17,883 9,825 8,263 13,757 14,023 13,554 13,890 12,637 11,231 11,447 10,352 8,712 6,980 4,433 9,714 11,170 10,453	63 80 73 65 55 61 90 100 92 81 60 101 93 87 90 71 68 79 82	1,237,164 1,174,549 1,309,400 636,216 456,714 816,892 1,272,287 1,389,243 1,289,426 1,021,855 673,736 1,160,474 966,997 318,323 660,629 886,752 886,752	\$0 42 45 38 42 55, 50 45 40 48 46 46 43 41 46 43 39 30	\$515,409 528,547 497,572 267,211 251,193 408,446 604,157 631,270 519,622 393,497 309,993 429,120 353,883 326,720 266,909 146,103 283,519 346,285 261,241

BUCKWHEAT.

There is a deficiency in the area of this crop this year as compared with last of nearly 800 acres, but 2,354 acres being reported this year, which was quite evenly divided between the three grand divisions of the State.

The average yield of 15 bushels per acre is somewhat smaller than last year, but is a good yield.

The total yield was 35,391 bushels, which at the average price of 45 cents per bushel' returned to the producer \$15,865, but little over half as much as the crop of 1895.

The following table gives the area, yield and value of the buckwheat crop in this State for the past nineteen years:

YEAR.	Acreage.	Av. yield per acre.	Bushels produced.	Price per bushel.	Value of crop.
1877	15,880		207,693		\$151,61
1878	16,060		155,340	1 33 77	206,60

895	2,354	19	35,391	40	15,80

TIMOTHY SEED.

The quantity of timothy seed produced this year, 157,282 bushels, is greater than for the three preceding years, and the average price per bushel of \$2.15 has been exceeded but five times in the last nineteen years. The total value of the crop at this rate would be \$335,615.

About two-thirds of the timothy seed raised in the State is produced in the northern grand division.

The following table gives the amount and value of the crop in the State since and including 1877:

Bushels Price per bushel.	Value of crop.
	326,949 479,990 880,272 1,108,980 538,697 476,447 512,438 228,276 294,803 311,421 224,651 434,300 232,277 208,069 192,676
113,675 113,566 142,817 157,282	1 70 1 85 2 30

CLOVER SEED.

There is a deficiency in the quantity of clover seed produced this year as compared with last of 18,000 bushels, 129,315 bushels being produced. Over half of this amount, 62,546 bushels, was raised in southern Illinois.

The price per bushel \$3.85 is the lowest obtained in the last five years. The total value of the crop at this price would be \$497,014.

In the following table will be found the yield and value of the crop of clover seed for 1895, as well as for the eighteen years preceding:

YEAR.	Bushels produced.	Price per bushel.	Value of crop.
1877. 1878 1879 1880 1880 1881 1882 1883 1884 1885 1886 1886 1886 1887 1889 1890 1890 1891 1892	77,388 138,191 87,144 125,042 55,862 78,656 138,920 122,612 180,267 122,906 78,005 191,596 62,931 107,829	5 00 4 60 5 20 5 00 4 75 4 40 5 00 4 15 4 60 3 15 3 80 4 05 6 05 5 30	\$310, 493 313, 421 690, 955 400, 862 650, 218 279, 310 375, 066 609, 945 365, 523 524, 271 747, 982 563, 412 245, 695 729, 638 303, 756 382, 045 572, 608 741, 820 441, 820

HUNGARIAN AND MILLET SEED.

Nearly twice as much Hungarian and millet seed was produced in Illinois in 1895 as in 1894, 37,189 bushels being reported. Of this quantity 24,167 bushels were raised in northern Illinois.

Although the average price per bushel of 69 cents is below the price of the last two years, the total value of the crop, \$25,725 is greater than that of any year since 1889.

The following table gives the yield and value of this crop since 1876:

YEAR. Bushels produced.	busner.	Value of crop.
1000		
		\$10,70
.878	7 55	14,7

19,728		13,9
37,189	69	25,7

BEANS.

The area devoted to beans in 1895 was but little smaller than that of last year, 1,656 acres being reported, principally from the southern division of the State.

The average yield per acre of 14 bushels is larger than for two years past, making the total yield of 23,087 bushels the largest for a number of years.

The ruling price of \$1.30 per bushel is the lowest on record, and the total value of the crop at that price is but \$30,512.

The following table gives the area, yield and value of the 1895 crop of beans, together with those of eighteen years preceding:

YEAR.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.
1877. 1878. 1879. 1880. 1881. 1882. 1883. 1884. 1885. 1884. 1885. 1886. 1897. 1888. 1889. 1899. 1890.	1,545 1,669 2,674 1,398 1,012 983 1,091 1,621 2,660 1,222 1,923 2,434 2,207 1,391 1,023 859 1,708	13 16 14 11 3 9 14 13 17 16 12 14 13 14 22 18 12	19,955 18,627 36,217 15,894 3,267 9,776 15,738 21,335 44,457 17,785 23,151 34,651 19,921 22,422 15,540 20,621 19,355	\$1 50 1 35 1 50 1 60 3 30 2 22 2 20 1 55 1 45 1 60 2 15 1 45 2 05 1 95 1 95 1 95 1 95	\$29,916 25,146 53,225 25,430 10,681 21,103 31,374 33,017 64,908 28,806 49,983 54,776 41,543 40,885 43,826 28,864 38,867 34,207

CASTOR BEANS.

Almost as large an area was planted to castor beans this year as last, 7,505 acres being reported.

But twice in the past nineteen years has the yield per acre of castor beans exceeded the yield of 1895, in the years of 1884 and 1885. The total yield of this crop this year is 73.417 bushels.

The average price obtained per bushel was \$1.10, making the total value of the crop \$79,822.

In the following table is given the area, yield and value of the last nineteen crops of castor beans:

Year.	Acreage.	Av. yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of erop.
1877 1878 1879 1880 1881 1882 1883 1884 1885 1886 1897 1898 1899 1890 1891 1892 1892 1893 1894	4,503 371 3,085 500 758 2,088 433 1,108 3,825 19,374 14,978 10,981 7,298 5,761 5,292 10,014 7,638 7,505	7 8 1-5 6 4-5 54 24/2 8 17 12 7 7 7 8 8 6 6 9		1 30 1 00 1 30 1 80 1 50 1 50 1 40	\$18,512 3,157 23,344 5,608 5,476 4,688 30,794 76,997 175,211 95,596 103,303 141,180 93,919 55,398 47,666 102,959 51,695 79,822

TOBACCO.

A slight increase in the area of tobacco over last year is reported, the area of 4,591 acres being the largest devoted to this crop since 1986.

The average yield was 810 pounds per acre, and the total yield 3,720,081 pounds, the largest crop of tobacco raised in Illinois since 1886.

The average price of tobacco was 6 cents per pound, making the value of the entire erop \$237.502.

Almost all of the tobacco raised in Illinois is in the southern division of the State, Franklin, Hamilton, Saline and Williamson being the great tobacco-producing counties.

The following table gives the area, yield and value of the crop in this State since 1876:

YEAR.	Average.	Av. yield per acre— pounds.	Pounds produced.	Price per pound.	Value of crop.
877	12,320			\$0 08	\$638,84

PASTURES.

The area in pastures this year is 4,631,270 acres, of which 2,500,601 acres is in northern Illinois, 1,566,962 in the central and 563,707 in the southern division of the State.

The total value of the pastures of Illinois, at the rate of \$3.35 per acre, is \$15,428,606. The following table gives the area and value of pastures for nineteen years past:

YEAR.	Acreage.	Value per acre.	Value of crop.
1877. 1878. 1879. 1880. 1880. 1881. 1882. 1883. 1884. 1885. 1886. 1886. 1887. 1888. 1889. 1890. 1891. 1892. 1893.	4,367,603 3,983,450 4,193,884 4,257,054 4,206,621 4,697,966 4,752,828 5,095,817 5,417,147 5,537,873 5,630,571 5,796,935 5,679,874 5,083,438 4,681,972 4,338,899 4,954,871 5,052,952 4,631,270	\$3 38 3 10 2 95 3 40 3 40 3 45 3 60 3 85 3 30 3 65 3 45 3 45 3 35	\$14,764,112 12,324,657 12,319,620 14,491,114 14,397,176 17,578,690 17,073,741 19,241,27 17,729,714 19,244,836 17,327,126 22,259,067 18,862,811 17,835,590 17,144,820 17,144,820 17,312,260 15,488,6775 16,939,914 17,312,260

VEGETABLES.

IRISH POTATOES.

Although there is a deficiency in the area devoted to Irish potatoes this year as compared with last of 6,823 acres, but 107,933 acres being reported this year, the unusually large yield of 99 bushels per acres brought the total yield up to 10,719,343 bushels.

The average yield per acre in northern Illinois was 102 bushels, and in southern Illinois 110 bushels, while in the central division of the State, on a very small area, but 69 bushels per acre were produced.

But twice in the last twenty-six years has the price of this vegetable been so low as this year, when it brought to the producer only 27 cents per bushel, making the value of the entire crop but \$2,862,115.

The following table gives the area, yield and value of the Irish potato crops of the State since 1859:

YEAR.	Number of acres.	Average yield per acre.	Bushels "roduced.	Price per bushel.	Total value.	Value per acre.	Cost of production per acre.	Total cost of production.	Profit,	Loss.

SWEET POTATOES.

There was but little difference between the 1894 and 1895 areas of sweet potatoes, the latter, 3,253 acres, being 203 acres smaller than the former.

The average yield per acre was 92 bushels, and the total yield 298,860 bushels.

The average price obtained, 62 cents per bushel, is little below the average for a term of years. The total value of the crop at this rate is \$185,788.

The following table gives the area, yield and value of the sweet potato crop of the State for the past nineteen years:

YEAR.	Acreage.	Average yield per acre— bushels.	Yield in bushels.	Price per bushel.	Value of crop.

TURNIPS AND OTHER ROOT CROPS.

A slightly larger area than in 1894 was devoted to turnips and other root crops this season, the area being 3,455 acres.

The average value per acre of these crops was \$41.35. The total value of these crops for 1895 was \$142,844.

The average yield of turnips per acre was 98 bushels.

The following table gives the acreage and value of turnips and other root crops grown in the State during the past nineteen years.

YEAR.	Acreage	Value per acre.	Value of crop.
1877. 1878. 1879. 1880. 1880. 1881. 1882. 1883. 1884. 1885. 1885. 1886. 1887. 1888. 1889. 1899. 1899.	7,056 3,775 3,139 2,300 3,046 3,809 4,361 3,856 3,002 5,002 2,592 3,802 2,793 5,208 3,779 3,575 3,333 3,455	40 85 230 15 45 85 230 15 45 85 200 15 45 85 205 75 75 75 83 50 93 12 118 42 46 16 46 19 43 90 94 10 69 35	257,387 363,966 210,432 354,046 538,950 128,947 207,780 164,127 336,385 231,210

OTHER CROPS NOT NAMED.

Under this caption are included the numerous small crops which are raised to a limited extent in the State, including vegetables raised for market and canning purposes, and these miscellaneous items are combined elsewhere in this report in a table with the above heading.

The value of these crops in 1895 was \$119,696, of which amount \$86,685 was produced in northern Illinois, \$12,369 in central and \$20,642 in southern Illinois.

FRUITS.

APPLES.

It is refreshing to have so encouraging a report on apples as this year after so long a period of comparative failure of this fruit.

This year 7,390,666 bushels were reported, a quantity exceeded but once since 1876, in 1880.

It must be borne in mind that during the years of so-called failure of the apple crop, hundreds of acres of young orchards in the southern part of the State have come into bearing, thus making the crop this year almost phenomenal.

A great deal of this fruit was put into cold storage early in the season, thus creating a scarcity in local markets, but this will be unloaded before spring.

Only 41 cents per bushel was obtained, the lowest price noted since 1876. The total value of the crop at this price is \$3,011,240.

The following table gives the number of bushels of apples and the value of the crops since 1876:

	YEAR.	Number of bushels.	Price per bushel.	Va ue of erop.
1878 1879		4,940,811 5,858,690 10,342,186	65 75 56	\$4,316,28: 3,211,52' 4,469,01' 5,791,62:

PEACHES.

The peach crop of the State this year amounted to 198,812 bushels, the largest crop raised in the State since 1883. More than 85 per cent. of this crop, or 169,576 bushels, was raised in the southern division of the State.

Only 74 cents per bushel was obtained for peaches this season. The total value of the crop was \$147,191.

The following table gives the quantity and value of the peaches produced in the State during the past nineteen years:

YEAR.	Number of bushels.	Price per bushel.	Value of crop.
1877. 1878. 1879. 1880. 1881. 1882. 1883. 1884. 1885. 1886. 1887. 1887. 1889. 1899. 1899. 1899. 1899. 1899. 1891. 1892. 1893. 1894. 1894. 1895.	402,587 607,292 25,749 398,970 96,507 319,911 260,923 135,329 51,466 36,783 12,829 153,556 177,145 37,170 107,646 195,380 114,840 63,698	1 00	\$370,280 376,521 34,503 219,176 149,586 265,526 227,443 38,741 45,705 15,213 93,083 136,782 48,259 133,713 200,072 116,704 70,958 147,191

PEARS.

Three times as many pears were raised in Illino's this year as last, 15,997 bushels being reported, 2 crop that has been exceeded but once in the past nineteen years, in 1880.

The price per bushel, 85 cents, is the iow-water mark on this fruit. The total value of the crop was \$13,680.

The following table gives the extent and value of the pear crop of the State since and including 1877:

GRAPES.

This fruit suffered severely from the May freeze while in blossom, so that the yield of 1,069,643 pounds was much below the average.

The average price per pound was 3 cents, and the total value of the crop \$28,957.

The following table gives particulars concerning the grape crop of the State for the past nineteen years:

	YEAR.	Pounds produced.	Price per pound.	Value of crop.
1878 1879 1880 1881 1882 1883 1884 1885 1886 1887 1888 1889 1890 1891 1891		3,002,748 1,322,636 3,174,952 7,833,011 1,115,902 1,013,390 695,100 467,014 331,404 942,773 2,273,996 2,313,600 1,789,152 2,278,663 1,318,621 1,464,402 1,781,089 1,089,648	\$0 03 03 03 04 05 05 05 04 04 04 03 03 03 03 03 03 03	\$92,782 57,679 95,548 234,991 55,795 40,536 36,844 22,500 13,472 26,389 81,837 75,322 79,735 66,027 68,272 46,379 48,972 52,890 28,957

WINE.

The following table gives the number of gallons of wine and the value thereof, during the past nineteen years:

YEAR.	Acreage	Av. yield peracrein gallons.	Number of gallons.	Price per gallon.	Value of crop.
1877 1878 1879 1880 1881 1882 1883 1884 1885 1886 1887 1888 1889 1890 1890 1891 1892	2,612 5,178 2,800 4,340 3,663 3,235 3,500 1,092 1,447 2,255 4,115 1,459 3,612 2,772 2,766 2,113 3,440 2,187 2,617	27 112 122 35	158,944 142,964 326,323 530,990 129,830 96,282 73,898 43,114 44,936 112,714 240,549 117,297 75,737 46,974 110,182 63,729 84,967 107,513 73,996		\$191,933 171,557 424,230 610,638 175,282 82,802 85,518 48,605 43,125 121,408 155,934 110,617 72,811 46,305 92,828 85,238 88,238 88,238 108,921 72,356

OTHER FRUITS AND BERRIES.

The following table gives the acreage and value of other fruits and berries not named above for the past nineteen years:

YEAR.	Acreage.	Value per acre.	Value of crop.
1877 1878 1879 1880 1881 1882 1883 1884 1885 1886 1887 1888 1898 1899 1899	4,523 2,569 3,111 7,803 7,670 5,881 4,583 10,181 6,401 7,528 5,908 5,626 5,213 4,897 3,605 2,388 1,755 2,690	\$35 53 55 51 59 62 29 65 26 34 47 50 58 33 24 63 32 46 29 82 27 25 10 22 50 18 42 23 76 39 79 47 12 60 51	\$178,800** 197,581 185,488 281,417 298,086 279,360 267,313 250,747 305,123 235,140 205,1440 205,146,685 96,049 116,340 124,340 126,685 127,484 127,523 107,484 163,007

STRAWBERRIES.

The strawberry crop this year was very light, its value being but \$10,999. Of this amount \$5,556 was produced in northern Illinois, \$1,985 in central Illinois and \$3,458 in the southern division of the State.

A table giving the value of the crop in each county in the State is published elsewhere in this report.

WATERMELONS.

The value of the watermelon crop of the State this year amounted to \$50,057.

In a table published elsewhere in this report, the value of the crop in each county in the State is given.

BEES AND HONEY.

Of the 427,667 pounds of honey produced in Illinois last year, 151,823 pounds pas produced in the northern division of the State, 105,925 pounds in the central and 169,919 pounds in the southern division.

The average price received was 13 cents per pound, and the total value of the honey produced \$56,534.

There were 50,760 hives of bees reported in Illinois in 1895.

POULTRY AND EGGS.

The value of the poultry sold in the State in 1895 was \$1,369,820, and of eggs \$1,253,006.

LIVE STOCK.

HOGS.

The number of hogs is 66,026 less than a year ago, but 2,963,511 being reported this year. At the equalized value of \$1.42 per head, this class of live stock would be worth to to the owners \$4,208,186.

An average of 83 per cent. of the total number of hogs in the State are marketed each year, the number for 1895 being 2,459,000. The average weight of hogs marketed was 222 pounds, making a total weight of 547,187,642 pounds. At the price per cwt. reported. \$3.70, hogs returned to the producers \$20,243,449.

The supply of hogs on hand December 1, 1895, as compared with the same date last year is 75 per cent.

The average price of hogs December 1 was \$3.15 per cwt.

Few counties in the State have escaped the ravages of hog cholera. The only ones not noting it in our reports are DuPage, Jo Daviess, Kanc, Kendall, Stephenson, Woodford, Christian, Cumberland, Montgomery, Alexander, Clay, Effingham, Franklin, Hamilton, Hardin, Jackson, Jefferson, Johnson, Marion, Massac, Richland, Saline, Union, Washington and Wayne.

The following table gives the number of hogs assessed and marketed in 1895, as well as their weight and value, for the last forty years:

	Assessors'	Returns.	cent.		weight		lbs.	
YEAR.	Number.	Value.	j per keted.	Number fat hogs marketed.	Av. gross w per head.	Total gross weight.	Value per 100 l gross.	Total value hogs mark et ed.

CATTLE.

But 1,782,158 cattle were reported in this State in 1895, a decrease of 16,259 in the past year. The equalized value being \$6.68 per head, they were worth \$11,904,815.

About 23 per cent. of the cattle of the State are marketed each year; thus 409,884 were sold this year. Their average weight was 1087 pounds, and the gross weight 445,708,007 pounds.

The average price of those marketed since May was \$3.45 per cwt., the best price obtained for cattle since 1886. The total value of those marketed was \$15.396,723.

The supply of beef cattle on hand December 1,1895, as compared with a year ago, was 86. per cent.

The prevailing price of beef cattle December 1 was \$3.30 per cwt.

The only disease noted among beef cattle is a few cases of "lumpy jaw," so called, in Lee county.

The following table gives the number, weight and value of the cattle marketed in the State since 1855:

	Assessors	Returns.	cent.		weight		lbs.	
YEAR.	Number.	Value.	Estimated per marketed.	Number beef cattle marketed.	Av. gross we per head.	Total gross weight.	Value per 100 gross.	Value beef cattle marketed.

DAIRY COWS.

The number of dairy cows in the State this year, 633,425, is more than 50,000 less than the number reported in 1894.

Of the number kept, nearly 64 per cent. are in northern Illinois, where the great bulk of the dairy interest is centered.

The average value of the cows kept this year is \$31 per head, being \$32 in northern Illinois, \$33 in central, and \$25 in the southern division of the State.

In Tazewell county milk-fever has killed some cows.

The following table gives the number and value of the dairy cows kept in Illinois since 1878:

Year	Number.	Average value per head.	Total value.							
1879 1880 1881 1882 1883 1884 1884 1885 1886 1886 1889 1899 1899 1899 1891	571,628 613,738 625,410 581,578 716,102 638,363 642,070 676,201 704,372 751,841 761,050 738,584 656,796 603,425 677,859 633,599 633,425	31 00 41 00 41 00 39 00 41 00 35 00 28 00 28 00 25 00 24 00 26 00 26 00 29 00	\$17,720,468 19,025,878 19,387,710 23,809,661 27,920,040 26,040,036 22,751,170 21,533,570 19,536,614 21,418,521 18,894,765 18,446,543 17,342,362 16,710,416 20,184,394 20,178,508 19,779,150							

SHEEP.

But 706,433 sheep were reported in the State in 1895, a decrease during the past year of 125,767.

At the equalized value of 85 cents per head, sheep were worth \$595,368.

Twenty-two per cent., or 154,087 head, Were marketed during the year, the average weight of which was 101 pounds, and the gross weight 15,510,328 pounds.

The average price received, \$2.80 per cwt., was somewhat higher than in 1894, and the returns to the stockbreeder from this source were \$432,966.

The supply of sheep on hand December 1, as compared with the same date last year, was 83 per cent., and the ruling price December 1 was \$2.70 per cwt.

In Williamson county sheep have been affected with a swelling in the mouth and throat which was very fatal.

The following table gives the number, weight and value of the sheep marketed in the State since 1855:

WOOL.

But 2,706,653 pounds of wool were shorn in Illinois in 1895.

The average price received for it, 13 cents per pound, was the same as the prevailing price in 1894, and is the least ever received for wool in this State.

The total value of the wool clip was \$359,463.

The following table gives the number of pounds shorn, the price per pound, and the total value of the wool clip for the last nineteen years:

YEAR.	Number pounds shorn.	Price per pound.	Total value.
1877. 1878. 1879. 1860. 1881. 1881. 1882. 1883. 1884. 1885. 1885. 1886. 1887. 1888. 1888. 1890. 1891. 1892.	3,291,677 2,891,087 3,944,558 4,757,988 4,757,981 4,477,081 4,447,808 4,301,024 3,833,505 3,577,253 3,130,132 2,927,015 2,767,585 2,420,227 2,782,684 3,096,034	21 21 23	\$987,503 7727,752 1,380,595 1,617,698 1,344,64 1,233,922 1,099,822 1,912,418 815,509 843,512 753,554 664,594 642,735 569,112 631,700 605,688 527,200

HORSES.

The number of horses reported this year, 964,264, is the largest reported since 1881, but their value, according to the equalized value per head of \$12.84, is but \$12,381,150, the lowest ever known on this class of live stock.

The number of colts foaled in 1894 is given at 89,657, a number much below the average of the last few years.

Cases of distemper among horses and colts are reported from the counties of Coles, Sangamon, Shelby, Effingham, Johnson, Pulaski and St. Clair.

In Ogle county there have been a few cases of strangles in horses, and in McDonough some unknown disease has affected them.

The following table gives the number of horses assessed in the State since 1855, and their equalized valuation, as well as the number of colts foaled each year:

	Assessors	Number

DAIRY PRODUCTS.

MILK.

There was some increase in the quantity of milk sold last year compared with 1894, there being 100,917,329 gallons reported.

The average price received, 11 cents per gallon, was somewhat below the average price of the last few years.

The total value of the milk sold in the State in 1895 was \$11,285,935.

The following table gives the amount, price and value of the milk sold in the State the last nineteen years:

YEAR.	Gallons sold.	Price per gallon.	Total value.
1877 1878 1879 1880 1881 1882 1883 1884 1885 1886 1887 1888 1889 1890 1890 1890 1890 1890 1890	17,124,506 30,567,415 96,659,845 40,153,488 41,433,620 43,006,273 50,056,318 54,321,937 53,413,133 42,000,560 67,155,426 69,874,016 83,178,807 91,263,464 100,891,071 116,552,480 96,575,416 100,917,329	101/2	3,209,579 7,732,788

CREAM.

Cream shows a deficiency this year in the quantity sold, but 1,053,625 gallons being reported.

The average price per gallon, 58 cents, is higher than in 1894, the total value being \$614,699.

The quantity and value of the cream sold in the State since 1876 is given in the following table:

YEAR.	Gallons sold.	Price per gallon.	Total value.
1877 1878 1879 1880 1881 1881 1882 1883 1884 1885 1886 1887 1886 1887 1888 1889 1890 1890 1890 1891 1892	2,744,259 62,707 230,947 601,314 1,380,936 2,132,379 1,479,183 2,553,415 3,468,498 2,435,439 12,778,952 2,072,955 2,633,844 1,453,945 1,418,3045 1,453,945 1	\$0 55 52 49 50 51 62 57 40 46 50 52 49 50 59 62 67 47 58	\$1,509,342 32,608 112,943 300,657 704,279 1,356,805 1,329,826 600,219 1,184,986 1,728,293 1,271,451 1,663,023 1,352,587 1,099,452 2,603,233 891,175 614,699

BUTTER.

More butter was sold in 1895 than in 1894 by 1,445,680 pounds, there being 18,227,836 pounds reported. For this the dairymen and butter-makers of the State received \$3,426,-519, an average of 18 cents per pound.

In the following table will be found the quantity and value of the butter sold in Illinois during the past nineteen years:

YEAR.	Pounds sold.	Price per pound.	Total value.
1877. 1878. 1879. 1880. 1881. 1882. 1883. 1884. 1885. 1886. 1887. 1888. 1890. 1891. 1899. 1891.		19 200 26 25 25 21 19 19 21 23 18 20 24 25 23	\$3,794,045 2,659,648 4,775,363 4,910,690 5,610,647 5,414,763 5,606,737 4,749,507 3,812,664 3,726,323 3,970,919 4,175,224 4,255,607 4,454,717 3,817,859 3,817,859 3,817,859

CHEESE.

The following table shows the quantity and value of the cheese sold in the State since 1876:

YEAR.	Pounds sold.	Price per pound.	Total value.
1877	4,502,671	\$0 12	\$540,320

Tables published elsewhere in this report give, by counties, the quantity and value of the dairy products of the State for 1895.

An examination of these tables discloses the fact, perhaps not generally known, that the dairy interest is very slightly developed in the central and southern divisions of the State—fully nine-tenths of the amount received from this industry being in the northern division. Of recent years a few counties in southern Illinois have been shipping milk into the St. Louis market, so that this branch of the dairy industry has increased considerably in that section, and is ahead of the central division.

SUMMARY.

The following table gives in small space the value of the principal farm products and live stock of Illinois for the year 1895: Winter wheat 10,457,157 Spring wheat.... 249,756 Oats 17,273,961 Rve 970.086 Barley.... 115,536 Buckwheat 15,865 14,389,764 Timothy seed..... 335,615 Clover seed..... 497,014 Hungarian and millet seed 25,725 Irish potatoes..... 2,862,115 Sweet potatoes...... 185.788 Turnips and other root crops..... 142,844 Broom corn.... 332,876 Sorghum..... 261,241 30,512 Beans Castor beans 79,822 237,502 Other crops not named..... 119,696 3,011,240 Apples Peaches 147,191 13,680 Grapes.... 28,952 Strawberries.... 10,999 50,057 Other fruits and berries..... 163,007 Wine 72.356 Honey..... 56,534 12,381,150 Horses (equalized value) Beef cattle (equalized value) 11,904,915 19,792,150 Dairy cows 4,208,186 Hogs (equalized value) 595,368 Sheep (equalized value). 359,463 11,285,935 Cream sold 614,699 Butter sold 3,426,519 Cheese sold..... 238,222 Poultry sold..... 1,369,820 1,253,006 Eggs sold....

AGRICULTURAL STATISTICS.

The value of the crop statistics collected by this Department consists in their prompt and seasonable appearance during the growing season, and immediately after harvest, when the information as to condition and yield is most needed to enable the producer and the public to decide as to the extent of the supply and market value of the crop. The official acreage of the crops, as reported by the assessors, is used as a basis for applying the estimates of crop correspondents as to the growing condition or yield of the harvested crop. In reporting condition, 100 is used by correspondents to represent a fair, seasonable, average vitality of growth, unaffected by storms, insects or contingencies; an increase of one-tenth, or ten per cent., is recorded 110; a decrease of five per cent. is marked 95, etc. The correspondents of this Department are, as a rule, experienced farmers who have made the study of the condition and yield of crops their life work—conservative men who realize the necessity for the work done by this Department, and assist it by their gratuitous reports.

It is is not pretented that these reports will exactly concide with the official assessors' returns, but they do represent the condition or yield of the various crops, etc., at the dates given, as estimated by men experienced in this work, and their estimates for a term of years, will be found to closely approximate the assessors' returns.

W. C. GARRARD,

Secretary.

* If the crop had been sold at prevalling prices December 1, it would have returned this amount to the producer.

NAMES AND POST OFFICE ADDRESSES

-OF-

CROPCORRESPONDENTS

STATE BOARD OF AGRICULTURE,

FOR THE YEAR 1895.

WITH DATE OF APPOINTMENT.

ADAMS COUNTY—
1877, A. R. Wallace, Camp Point.
1879, G. W. Dean, Adams.
1883, H. C. Cupp, Fall Creek.
1888, C. H. Rankin, Fall Creek.

ALEXANDER COUNTY-

1888, S. H. Yates, Commercial Point. 1891, C. O. Foster, Commercial Point.

BOND COUNTY-

ND COUNTY— 1887, John V. McFarland, Reno. 1882, W. D. Henry, Beaver Creek. 1884, E. L. Willford, Old Ripley. 1885, J. B. Denny, Sorrento. 1885, W. H. Taylor, Tamalco.

BOONE COUNTY-

1877, George Reed, Belvidere. 1877, S. C. Fox, Garden Prairie. 1885, Stanley T. Heath, Capron.

BROWN COUNTY-

1889, W. B. Rigg, Mt. Sterling. 1889, Jos. W. Curry, Mt. Sterling.

BUREAU COUNTY— 1877, James F. Mallett, Milo. 1885, R. B. Frary, LaMoille. 1886, C. P. Mason, Buda.

CALHOUN COUNTY— 1881, M. A. Kamp, Kampsville. 1891, Isaac S. Berry, Batchtown.

CARROLL COUNTY—
1882, John Cole, Thompson.
1882, S. Preston, Mt. Carroll.
1888, Whitney Inman, Milledgeville.

CASS COUNTY-

1878, John H. Goodell, Chandlerville. 1878, John Beggs, Ashland. 1878, John K. Clark, Bluff Springs. 1895, G. W. Benton, Newmansville.

CHAMPAIGN COUNTY-

1877, W. A. Conkey, Homer. 1885, W. E. Dawley, Seymour. 1888, W. H. Morgan, Tolono.

CHRISTIAN COUNTY—
1877, J. B. White, Morrisonville.
1877, John W. Hunter, Owaneco.
1877, A. B. Herdman, Morrisonville.
1878, O. S. Nash, Sharpsburg.
1880, J. R. Hill, Edinburg.

CLARK COUNTY—
1877, James B. Sheaply, Martinsville.
1877, F. B. Enniss, Dolson.
1877, R. R. Scott, Casey.
1880, L. B. Anderson, Darwin.
1880, Jerry Ishler, Martinsville.

CLAY COUNTY— 1880, Theron Gould, Bible Grove. 1882, A. W. Bothwell, Clay City. 1891, Edgar Hayes, Iola. 1895, John W. Waespe, Clay City.

CLINTON COUNTY-

INTON COUNTY—
1878, John Burton, Trenton.
1887, W. H. H. Nichols, Carlyle.
1889, A E. Phillips, Aviston.
1888, B. Pullen, Centralia.
1890, John B. Heimann, Damiansville.
1892, George A. Gerdes, Huey.

COLES COUNTY—
1880, J. F. Dora, Charleston.
1882, E. G. Patterson, Mattoon.
1884, Wm A. Poorman, Humboldt.
1887, Garrett V. Millar, Mattoon.
1891, Chauncey R. Doty, Charleston.

COOK COUNTY— 1879, C. L. Sweet, Glenwood. 1880, Elbert Wheeler, Arlington Heights

CRAWFORD COUNTY—
1877, William L. Heustis, Robinson.
1877, Andrew Newlin, Husonville.
1880, J. P. Weger, Flat Rock.
1882, William Wood, Oblong.

CUMBERLAND COUNTY—
1882, Jas. M. Albin, Neoga.
1887, David B. Green, Toledo.
1891, J. L. Mattoon, Greenup.
1895, Otis D. Gould, Neoga.

DEKALB COUNTY-

KALB COUNTY— 1881, Edwin Waite, Sycamore. 1884, Robt. Hampton, East Paw Paw. 1890, John King, Courtland.

DEWITT COUNTY— 1877, E. H. Robb, Clinton. 1882, W. R. Carle, Wapeila.

DOUGLAS COUNTY—
1879, F. A. McCarthy, Tuscola.
1887, William Hes, Camargo.
1891, W. C. Campbell, Murdock.
1891, J. F. Bouck, Arcola.
1892, Perry N. Howe, Ficklin.

DUPAGE COUNTY— 1885, Thomas Betts, Jr., Naperville. 1888, A. D. Albro, Wayne.

EDGAR COUNTY—
1878, A. S. McCord, Paris.
1885, Morris Little, Edgar.
1887, Geo. W. Legg, Scotland.
1892, Samual Graham, Jr., Paris.
1892, C. D. Smith, Grandview.

EDWARDS COUNTY—
1877, W. A. Shelby, Maple Grove.
1877, Charles Clark, Albion.
1888, John H. Marshall, Grayville.
1889, Ira Gould, Bone Gap.
1892, John T. Woods, Ellery.
1893, Fred Beeham, West Salem.

EFFINGHAM COUNTY—
1883, George W. Strong, Elliottstown.
1883, T. J. Dunn, Elliottstown.
1885, William Blakeley, Altamont.
1888, Samuel Bartley, Edgewood.
1895, G. S. Irvin, Effingham.

INTRODUCTORY.

This report is compiled from the applications filed for State certificates under the "Act to protect stock breeders within the State of Illinois," during the year 1895. There were issued sixty-six certificates during the past year.

The pedigrees contained herein have been verified so far as possible by the various stud books of recognized live stock associations of America, England, Scotland and France.

No doubt inaccuracies will be found, owing to the indifferent, if not the entire, want of method in preserving the pedigrees of stock adopted by many breeders and importers. Where it was possible to correct them before the certificates were issued, it has been done.

Again the attention of owners and breeders of live stock in this State is called to the necessity of having their animals properly and promptly recorded in the herd and stud books of the country.

During the past few years there has been a most remarkable improvement in the class of draft, trotting, pacing and coach sires, in service in the State, and it is hoped that more attention will be given to the recording of the pedigrees of their progeny than before. A copy of the law relative to false pedigrees is given in this report, that breeders and importers may fully understand its provisions and appreciate the penalties imposed.

Blanks pertaining to the "Act to protect stock breeders within the State of Illinois" will be cheerfully furnished on application.

W. C. GARRARD, Secretary State Board of Agriculture.

APPLICATION FOR CERTIFICATE.

189
To the Secretary of the State Board of Agriculture, Springfield, Ill.
SIR: A State Certificate is desired for the following described sire, which you are respectfully requested to issue as provided in the law entitled "An act to protect stock breeders within the State of Illinois." Enclosed you will find postoffice (or express) money order for two dollars, to cover the expense of making out the certificate to be sent to the County Clerk, the certificate to be posted as prescribed by law, at the station at which the sire is making the season of 1895, and the third copy for the undersigned.
PEDIGREE, ETC.
Name of Animal () Breed Date of birth 18 Distinguished Natural Marks, Color If Imported, When? By Whom? P. O. Bred by P. O. Owned by P. O. Terms and Conditions of Service—Season, Insurance, Insurance
Or. Breeder.
STATE OF ILLINOIS, Sec.
being duly sworn states that the matter and things set forth in the above statement are true. Witness my hand and seal, this
Subscribed and sworn to before me, this

An Act to Protect Stock Breeders Within the State of Illinois. In Force July 1, 1889.

SECTION 1. Be it enacted by the People of the State of Illinois, represented in the General Assembly: That in order to protect farmers in this State against damage resulting from breeding to sires advertised with bogus or fraudulent pedigrees, and to secure to the owners of sires payment for services, the following provisions are enacted: That every owner of a sire charging a service fee, in order to have a lien upon the get of any such sire under the provisions of this act for said services, shall file a statement, verified by oath or affirmation to the best of his knowledge and belief, with the Secretary of the State Board of Agriculture, giving the name, age, description and pedigree, as well as the terms and conditions upon which such sire is advertised for service.

§ 2. The Secretary of the State Board of Agriculture, upon receipt of the statement as specified in section one (1) of this act, duly verified by affidavit, shall issue a certificate to the owner of said sire, a copy of which certificate shall be forwarded to the clerk of the county court in which said sire is stationed or located, and another copy furnished the applicant, which shall be posted by the owner in a conspicuous place where said sire may be stationed, which certificate shall state the name, age, description, pedigree and ownership of said sire, the terms and conditions upon which the sire is advertised for service, and that the provisions of this act, so far as relates to the filing of the statement aforesaid have been complied with.

§ 3. The owner or owners of any sire receiving such certificate, by complying with section one (1) of this act, shall obtain and have a lien upon the get of any such sire for the period of six months from the date of birth of get: *Provided*, said owner or owners shall, within twelve months of the time of rendition of such service by such certified sire,

file for record a statement of account, verified by affidavit or affirmation, with the Recorder of the county wherein the service has been rendered, of the amount due such owner or owners for said service,

together with a description of the female served.

§ 4. No get of any such sire shall be exempt from levy and sale under execution issued upon a judgment, obtained in any court of competent jurisdiction of said service: Provided, that the court rendering such judgment shall find and certify, in the record of the same, that the plaintiff or plaintiffs have complied with the provisions of this act, and that the progeny songht to be levied upon is subject to the lien created: And, provided further, that said finding, together with a description of the dam of the progeny so liable to such lien, shall be endorsed upon the execution.

§ 5. For filing certificates, making copy of such affidavit or affirmation, the certificate of the date of such filing, the Clerk or Recorder shall be entitled to the same fees as are provided by law for like ser-

vice in regard to chattel mortgage.

§ 6. The Illinois State Board of Agriculture is authorized to make a charge for such certificate—not to exceed two dollars (\$2)—as may be necessary to cover the expense incident to executing the provisions of

this act.

§ 7. The Commissioners of State Contracts shall have such a number of the annual reports printed and bound in third-class binding as may be deemed advisable by the State Board of Agriculture, to obtain the greatest benefits to the breeders of improved stock in this State, under the provisions of this act, said reports to contain copies of the certificates issued, and such other data of especial interest to live stock breeders as said Board of Agriculture may designate for publication therein.

FORM OF CERTIFICATE.

STATE BOARD OF AGRICULTURE.

To all to Whom these Presents shall Come—Greeting:

This is to Certify,

I further certify that the provisions of said Act, so far as relate to the filing of the statement aforesaid, have been complied with.

This certificate covers service rendered during the year 189

Secretary of State Board of Agriculture.

STATEMENT OF ACCOUNT.

Filed for record theday of 189at	o'clock.			

PEDIGREES.

Below Will be Found the Law Relative to Fraudulent Pedigrees.

 \S 1. Provides penalties for obtaining certificate of registration upon false pretenses.

An act to punish false pretenses in obtaining certificates of registration of cattle and other animals, and to punish giving false pedigrees.

SECTION 1. Be it enacted by the People of the State of Illinois, represented in the General Assembly, That any person, who by any false pretense, shall obtain from any club, association, society or company for improving the breed of cattle, horses, sheep, swine or other domestic animals, a certificate of registration of any animal in the herd register, or other register of any such club, association, society or company, or a transfer of any such registration, and every person who shall knowingly give a false pedigree of any animal, upon conviction thereof shall be fined not exceeding \$1,000 nor less than \$25, or imprisonment in the county jail for a period not exceeding one year. or both, in the discretion of the court.

Approved May 13, 1887.

LIST OF SIRES.

Certificate No. 1051.

STEMWINDER 4273.

PRESS OF ILLINOIS STATE REGISTER 1895

ILLINOIS STATE FAIR, 1895

The wisdom of the State Board of Agriculture in permanently locating the great annual exposition of the products of this wonderful State, was clearly and conclusively demonstrated in the success attending the Fair of 1894. The Board have determined to make the Fair of 1895 a still greater success than that of 1894, and with the encouraging, generous hand of the Legislature to aid them, can assure the people of not only Illinois, but the Union, that when they return to their homes after a visit to the Fair of 1895, they will exclaim with the Queen of Sheba, after a visit to the grandeurs surrounding Solomon—"The half had not been told."

The grounds of this Fair are the most picturesque and beautiful in the State. They embrace 156 acres of lovely undulating prairie, nicely wooded and watered, and situated two and a half miles north of the Court House, in the city of Springfield; easy of access by broad paved driveways and lines of electric street railways, and tracks of the Chicago & Alton and the Chicago, Peoria & St. Louis railroads, with trains every few minutes. These lands were generously donated by the Sangamon County Board of Supervisors to the State Board of Agriculture for that purpose. The grounds are now being improved as fast as practicable, with new buildings, barns, driveways, walks, and all conveniences necessary to make them complete for the accommodation of visitors, exhibitors and all classes of live stock and other exhibits.

The new Exposition Building, finished last year, is the largest and best appointed building ever erected for a similar purpose on any fair grounds in the United States. The length of the building is 342 feet, extreme width 217, mean width 127, height from grade line to the foot of the flag staff 105 feet.

The Machinery Hall, now in course of erection, will be completed by the middle of September. It is 500 feet long and 144 feet wide, 176 feet of which is enclosed, the balance being constructed like an immense train shed to a passenger depot.

The Agricultural Building is 200x200 feet, built especially for the exhibition of the products of the farm and orchard, and will be, when

completed, the handsomest building on the Fair ground.

The Grand Stand is a steel structure seating nearly ten thousand people, and will be furnished with chairs all properly numbered, so that seats may be reserved for those who wish them.

The Dining Halls under this building will cover its entire length of 400 feet, affording greater accommodation and comfort to the visitor than those of any other fair ground in existence.

The privileges in this building will be let to caterers of well known reputation, and the Board guarantees the public will not be

imposed upon.

The sheep and swine pavilions, poultry house, and barns for cattle and horses, are all models of perfection, and compare with those of any other fair ground in the United States as a Pullman palace car compares with an old fashioned stock car.

The accommodations for speed and track horses are unsurpassed for safety and convenience, and are so pronounced by every horseman who has had the pleasure of visiting them.

The new race course is a thing of beauty—full regulation pattern—quarter turns and quarter stretches, perfectly tiled, fenced, and will be kept in the best possible condition by one of the most competent track men in the country.

The hotels of Springfield are favorably known all over the State, and they, together with the numerous boarding-houses, will afford to visitors comfortable accommodations during the week of the Fair. The many attractions of the city, places of amusement, magnificent State House, Executive Mansion, the home of our martyred President, as well as his last resting place beneath the National Lincoln Monument in beautiful Oak Ridge Cemetery, the Illinois Watch Factory, Iron Mills, and other large and important manufacturing establishments have conduced to make Springfield the most popular point in the west for excursionists and travelers.

The State Board of Agriculture places this Premium List in the hands of exhibitors and other interested, with no small degree of pride. The offerings aggregate \$40,000. No classification ever offered at a State Fair has embraced so many items for award. Special attention is called to the very liberal premiums offered for county exhibits of agricultural products.

Each county making an exhibit under the conditions named herein will receive \$50 as a bonus, if it is not awarded one of the nine premiums offered.

In addition to these munificent offerings, the great staple product of Illinois, corn, has a special classification with most liberal premiums, the whole making a premium list for agricultural products unparalled in the history of fairs.

The "Ladies' Department" has not been been neglected in the compilation of the Premium List, and every effort has been made to make this department even more attractive than ever before. The premiums are large, and are offered for all the standard articles usually shown in this department, together with new varieties of needle work, etc., which are now in vogue. Every facility for accommodating exhibitors has been provided, and superintendents and assistants are at all times ready to aid them.

COMPETITION OPEN TO THE WORLD.

Excursion rates of one fare for the round trip will be given on all railroads of the State. Exhibits of every description (except horses) will be charged one tariff rate going, and will be returned free, if no change of ownership has taken place.

Members of the press, crop correspondents, officers of county organizations and others holding complimentary tickets, will please report at the President's office, that the usual courtesies of the Illinois State Board of Agriculture may be extended to them.

Forage will be supplied to exhibitors of live stock at the lowest market prices.

For further information address,

W. C. GARRARD, Secretary, Springfield, Ill.

General Rules and Regulations

FOR THE FAIR-1895.

Members of the Board Will See That These Rules are Strictly Enforced.

Shipments of Exhibits.

- 1. The Fair Grounds will be open for the reception of stock and articles for exhibition on Tuesday, the 17th day of September, 1895, and they should be shipped to the exhibitor or his agent, and in no case shall any article be brought upon the grounds and be placed upon exhibition except by and at the expense of the owner or his authorized agent.
- 2. Exhibitors of implements and machinery are requested to ship such articles as are intended for exhibition as early as possible, so as to give ample time for transportation.
- 3. Freight for the Fair should be billed to the FAIR GROUND, SPRINGFIELD, ILLINOIS.
- 4. All animals and articles entered for exhibition must be placed in the several departments prior to 6 o'clock P. M. Monday, September 23, 1895, and if not so placed, the owners will thereby forfeit all right to exhibit or compete for premiums, unless relieved from such result of forfeiture by order of the Superintendent of the Department in which they are entered.

Entry of Exhibits.

- 1. Entries may be made by addressing the Secretary at Springfield, Illinois. Applications for entry in live stock, Classes Λ, B, C, D and E, must be filed before Monday, September 16, 1895, at 6 o'clock P. M. Blank applications will be furnished at any time, on which to specify exhibitors name and address, with description of animal or article offered. No entry can be made after Monday, September 23, 1895, at 6 o'clock P. M., unless in case of unavoidable detention, and then only on the certificate of the Superintendent of the Department. Exhibitors will find their entry cards and exhibitors' tickets ready for them at the office of the Secretary on the Fair Grounds on the first day of the Fair.
- 2. Articles which are the product of mechanical or artistic skill may be entered by the artist, inventor, manufacturer, dealer or authorized agent.
- 3. On the entry of each animal or article, a card will be furnished the exhibitor specifying the class, the number of the lot, and the number of the entry, which card must remain attached to the animal or article during the exhibition, except in Classes C, D and E, where the card should be attached to the pen or coop.

- 4. All statements of facts required of exhibitors in making entries in regard to age, pedigree, etc., must be verified by affidavit. In all pure-bred classes recorded pedigrees, or such as are eligible to record, attested by the Secretaries of the respective pedigree records, must be furnished at the time of entry. Statements showing date of birth and the proportion of improved blood, so far as known in each animal exhibited, in lots for grades and crosses, must be furnished at the time of entry.
- 5. No animal or article will be entitled to a place on the grounds until the entry shall have been made as above, except in cases of emergency, and then at the discretion of the Superintendent of the Department.
- 6. All State and Public Institutions shall be allowed to exhibit, but shall not be permitted to compete for premiums.
- 7. Every animal or article entered for competition shall be under the control of the Superintendent of the Department in which it is entered, but the Board of Agriculture will in no case be responsible for any loss of or damage to the same that may occur.

Fees.

1. The following fees will be charged:

	exhibitor's ticket \$2	
For	each box stall for horses entered in Speed Department 4	00
For	each box stall in sheds 2	00
For	each open stall in stables 3	00
For	each open stall in sheds 1	00
For	each open stall in cattle barns 2	2 00
For	each open stall in cattle sheds	. 00
For	each sheep	50
	each hog	

Provided that the application is filed with the Secretary before 6 o'clock, Saturday, the 21st day of September. Otherwise double fees will be charged.

Stalls will be assigned by the Superintendent of Stalls only upon the certificate of the Secretary that the fees therefor have been paid.

2. Each exhibitor must purchase an exhibitor's ticket before making entries, a firm being recorded as one exhibitor. Only one member will be admitted to the grounds on the ticket that entitles the firm to compete, and in no case will such ticket be transferable. Members of the competing firm may purchase exhibitor's coupon tickets at \$2.00 each. A complimentary ticket does not entitle the holder to compete for premiums.

Visitors.

Tickets will be sold as noted below:

Tickets	admitting	g one person\$0	50
44	"	child under 12 years	25
"	44		75
"	44		50
"	"	four-horse vehicle 1	00
"	66	delivery wagon 3	00
dmission	to Grand		25

1. Each occupant of a vehicle must be provided with an admission ticket.

- 2. No carriages or vehicles will be admitted to the grounds except at the carriage gate.
- 3. Delivery wagons will be charged \$3.00 for ticket, good for driver and wagon during the week. Deliveries to be made not later than 9 A. M.
- 4. No person will be permitted to remain on the grounds over night except those holding complimentary or exhibitor's tickets or permits, unless he has purchased tickets for the next day.

Rules Applicable to Animals.

- 1. Any person who shall enter stock or occupy a stall or pen therewith, and shall fail to show in the class entered, shall be required to pay a penalty of not less than \$10.00, and the stock so entered shall not be removed from the grounds until such fine be paid, unless excused by Superintendent. The Superintendents of Forage and Classes A, B, C and D, shall be a committee to determine whether such stock shall have been properly exhibited, and their decision shall be final.
- 2. All competing animals shall be exhibited and paraded in the ring at the discretion of the Superintendents, and any exhibitor failing to comply with this rule will forfeit any premium awarded his stock. No animals shall be decorated with any unnecessary trappings, etc., during the examination by the awarding committee.
- 3. Every animal shall be entered and exhibited in the name of the bona fide owner or his agent at the time of entry (except where otherwise specified), but owners' names shall not appear on the entry cards.
- 4. The owner of the dam, at the time of service, shall be considered the breeder of the animal.
- 5. The Superintendents of Classes A, B, C and D, shall exclude stock from all competition, should there be unnecessary or embarrassing delay on the part of the exhibitors in bringing animals into the show ring.
- 6. The age of the animal, except as noted, shall be determined from date of birth to the first day of the Fair.
- 7. Animals affected by, or having been exposed to any contagious diseases during the thirty days next preceding the Fair, will be excluded from the grounds. All stock exhibited in breeding rings must be in breeding condition, and evidence must be produced, if required, that they are breeders. All male animals shown in any breeding ring must be entire, and no animal shall be considered which is affected with any chronic disease, deformity or any serious imperfection.
- 8. In case of the outbreak of any contagious or infectious disease among domestic animals, making it advisable for the public safety that such stock should not be exhibited at the Illinois State Fair, the Board reserves the right, in case of such an emergency, to withdraw the premiums therefor, by giving the public notice of such action at any time.
- 9. No animal on exhibition can be removed from the grounds until the close of the Fair, except animals affected with disease, and in such cases only upon the written permission of the President.
- 10. Symmetry, size, early maturity and general characteristics of each of the several breeds of animals will be considered by the judges.

Duties and Privileges of Exhibitors.

- 1. Exhibitors will at all times give the necessary personal attention to whatever they may have on exhibition, and at the close of the Fair, take entire charge of the same. The hour of closing the Fair is 4 o'clock p. m. Saturday.
- 2. Any exhibitor who tears off a premium ribbon, or authorizes another person to do so, in the presence of the awarding judge, or shall otherwise insult the awarding judge, shall forfeit the premium and be excluded from competition.
- 3. Exhibitors of live stock are expected to exercise due discretion in regard to exhibiting animals while in their stalls.

Protests.

1. Protests designed to affect awards must be made by an interested party, and notice given to the Secretary not later than 6 o'clock P. M. of the day before the animal is to be shown, and a written statement, verified by affidavit, setting forth the reasons for protesting, must be filed with the Secretary on the day the animal or article is exhibited.

In every case of protest the protesting party must deposit with the Secretary at the time of filing the protest, ten dollars (\$10), which sum shall, in the event of the protest being sustained, be returned to the complainant, and if the protest shall not be finally sustained, shall be paid to the Treasurer of the Board.

- 2. Protests will be entertained at any time thereafter previous to or during the first two days of the next winter meeting of the Board, if the protesting party shall state under oath that the facts upon which the protests are made were not in his possession at the time the award was made. In all cases where protests are made, if the Board shall be satisfied that they are instigated by improper or malicious motives, the Board shall exclude the party protesting from exhibiting for two years or more thereafter.
- 3. In case of protest based on fraud or other cause of ineligibility, the owner of the protested animal or article shall be required to verify the correctness of the entry by affidavit, which verified statement, together with all other obtainable evidence, shall be presented on the final consideration of the question at issue. In addition to the rights of protest herein guaranteed to interested parties, the State Board of Agriculture expressly reserves the right to take cognizance of fraud, which may have been consummated or attempted, and to deal with any party or parties implicated therein in such manner within the scope of the power of the Board, as may from the evidence relating thereto be deemed just and proper.

Awards.

- 1. Awards will be made by the single judge system.
- 2. Judges will report to the Superintendents at their respective departments at 9 o'clock A. M. of the day fixed for awarding premiums on the lots on which they are respectively to judge.
- 3. No person shall act as judge in any lot in which he may be interested as an exhibitor, agent or employe of an exhibitor, or otherwise, and if such case should be presented, the Superintendent of Department may remove such interested judge, or substitute another judge temporarily.

- 4. The awards of premiums at the Fair shall be confined to entries named in the Premium List. The judges shall, however, examine all animals or articles entered and shown as "miscellaneous," and when any such exhibits are deemed sufficiently meritorious, they may recommend their suitable recognition by the Board, in which cases the judges shall enter on the entry books, and in a special report, if necessary, give their reasons in full for such recommendations. Such reports shall be returned to the Secretary, by the Superintendent, and shall be acted upon by the Board at its discretion, at the annual meeting next following the Fair, and the Secretary shall, at an early day thereafter, notify the parties interested of the action taken.
- 5. No animal or article deemed unworthy shall be awarded a premium; but no premium shall be withheld merely because there is no competition. Judges may award any grade of premium according to the merit of the animal or article.
- 6. Should any doubt arise as the regularity of entry, or any other important matter, which the judge feels incompetent to decide, he shall at once report the same to the Superintendent of the Department for decision, which, when made, shall be final.
- 7. Judges are instructed that if they shall have good reason to believe that any exhibitor, by false entry or otherwise, attempts to deceive the judges or the public, and obtain a premium by misrepresentation, they shall report the facts at once to the Superintendent of the Department, who shall report the same to the Board, who may expel such exhibitor for fraud for two or more years.
- 8. The decisions of an awarding judge shall be final, and no appeal will be considered except in case of protest.
- 9. Objections to any person serving as a judge must be submitted to the Superintendent in writing, prior to making any award, giving good and sufficient reasons therefor, and upon which the Superintendent shall have full power to act.
- 10. Any exhibitor attempting to interfere with the judges during their adjudication will be promptly excluded from competition.
- 11. Each award (and notice of protest, if any is made) must be written in a plain, careful manner by the Superintendent, in ink or indelible pencil, in blank page opposite the entry.
- 12. The books must be returned by the Superintendent of each Department to the Secretary as soon as the awards in each are completed.
- 13. Each Superintendent is expected to exercise great care in preserving and returning the Department Books, as upon the entries of awards in them, and upon no other authority can checks for premiums be drawn.
 - 14. Awards will be designated as follows:

BLUE RIBBONS are designed for the first premium.

RED RIBBONS for second premium.

WHITE RIBBONS for third premium.

YELLOW RIBBONS for fourth premium.

ROYAL PURPLE RIBBONS for sweepstakes premiums.

Money prizes will be limited to first and second awards, except in speed rings.

Ribbons will be affixed at the time of the awards, on all premium animals shown in the rings. Upon all other animals or articles the

Superintendents of the several departments shall attach the ribbons as awarded by the judges, and they are *never* to be affixed to articles classed as "Miscellaneous."

Green ribbon is designated for miscellaneous articles, for which no premium can be awarded, except by the Board at a regular meeting.

Permits and Privileges.

- 1. The Superintendent of Permits and Privileges will sell privileges for dining hall, booths, stands, etc., for the Fair, on Tuesday, September 3, 1895, at 10 o'clock A. M., on the Fair Ground at Springfield.
- 2. No privileges will be granted for less than \$25.00, and no game of chance will be permitted on the grounds. The right is reserved to annul any permit by the Superintendent of Permits, for any cause satisfactory to him at any time.
- 3. No privilege or space can be re-sold except upon the written consent of the Superintendent of this Department.
- 4. The Superintendent of Permits and Privileges will issue one helper's ticket only for each \$12.50 paid for privilege. Additional helper's tickets will be furnished upon the payment of \$2.00 for each helper. Helpers tickets in this Department will be in book form, each leaf being used for the day and date printed thereon. Additional helpers tickets that are not used will be redeemed by the Superintendent of this Department on the last day of the Fair, at 33½ cents for each ticket remaining in the book. No tickets will be redeemed in the helpers' books marked "original." In bidding for space concessionaires must take this fact into consideration in their bids.
- 5. Each concessionaire must confine himself to the space assigned him. Failure to do so will subject him to forfeiture of his privilege.
 - 6. Helpers tickets will be good only at Helpers Gate.

Payment of Premiums.

- 1. Premiums will be paid in cash, except where otherwise noted. Medals, appropriately engraved, will be delivered after the annual meeting of the Board, in January.
- 2. After the awards are made and the books returned to the Secretary, he will draw, and on application deliver to those entitled to them, checks on the Treasurer, for the several amounts of cash premiums.
- 3. These checks must be endorsed, as they are payable to order—not to bearer—and on presentation to the Treasurer, properly endorsed, will be paid.
- 4. All checks will be paid at the Treasurer's office on the Fair Grounds, at 4 o'clock P. M., on the last day of the Fair, and at the Marine Bank in the city of Springfield, Illinois, within the time specified in rule 5.
- 5. Checks for premiums not applied for during Fair week, will be forwarded by the Secretary, on receipt of proper instructions, at any time within three months after the award.

Those not applied for within that time may be forfeited to the Board.

Forage and Stalls.

- 1. The Superintendent of Forage and Stalls will assign stalls for cattle and horses, upon the certificate of the Secretary that the fees therefor are paid.
- 2. Stalls will be assigned only to bona fide exhibitors, and parties subletting stalls without permission of the Superintendent of Stalls, will thereby forfeit the same, and such stalls will be subject to reassignment.
- 3. Parties desiring stalls for the exhibition of horses and cattle at the Fair, must file their applications with the Secretary at Springfield. Blank applications for stalls will be furnished at any time, on which to specify the exhibitor's name and address, with name of breed of animals for which stalls are desired. Applications for stalls will not be considered unless accompanied by the fees.

Stalls used for feed or attendants furnished at same price.

Parties contracting for stalls and not occupying the same on or before Monday, September 23, will forfeit the fees paid, and the stalls will be subject to re assignment. In case of unavoidable detention and failure to attend the Fair, proper notice of such inability must be given the Superintendent of Stalls prior to 6 o'clock P. M. on Saturday, September 21, otherwise the matter of returning the fees paid will not be considered. In case additional stalls have been constructed for the accommodation of applicants, and are not occupied by reason of failure of the party to attend the Fair, the stall fees will not be returned.

4. Any person who shall enter stock, and occupy a stall or pen therewith, and shall fail to show the same in the class entered, shall be required to pay a penalty of not less than \$10 for each offense, and the stock so entered shall not be removed from the grounds until such fine be paid. The Superintendent of Forage and Stalls and of Classes A, B, C and D, shall be a committee to determine whether such stock shall have been shown in good faith, and their decision shall be final.

LIST OF PREMIUMS

FOR THE FAIR OF 1895.

CLASS A.—CATTLE.

- 1. Protests-See General Rules.
- 2. All females 36 months of age or over must have produced a living calf within the last eighteen months before the first day of the Fair, or give satisfactory evidence of being in calf.
- 3. All applications for entry of cattle must be accompanied by name of breeder, name, age and date of birth, and name and number of sire and dam of the animal to be exhibited.
- 4. Pedigrees of cattle, in all cases, must be traceable to the American or Foreign Herd Books for the particular breeds to which they belong.
 - 5. Awards will be made by expert judges.
- 6. The Superintendent shall exclude stock from competition, should there be any unnecessary or embarrassing delay on the part of the exhibitors in bringing animals into the show ring.
- 7. All animals entered for exhibition shall be in place not later than 6 o'clock P. M., Monday, September 23, 1895.
 - 8. Entries close Monday, September 16, 1895, at 6 o'clock p. m.
- 9. Animals cannot be removed until the close of the Fair, except when affected by disease, and in such cases only upon the written permission of the President.
- 10. The Superintendent of Forage and Stalls will furnish exhibitors of cattle with tickets, permitting their assistants to remain on the grounds; but such tickets will not entitle the holder to admission at the gate.
- 11. A single animal may be exhibited as one of a herd, but shall not otherwise be entered in more than one lot (except in Lot 43, and lots for get of one sire and produce of one cow).
- 12. When on exhibition in the ring, each animal in Class A must be under halter, and in charge of owner or employe, except as noted.

CLASS B-HORSES, JACKS AND MULES.

- 1. Protests-See General Rules.
- 2. The same animal, being otherwise eligible under the rules, may be entered and shown as one of a pair, but shall not otherwise be entered in more than one lot.
 - 3. Draft horses can be entered and shown only in one lot.
- 4. The ages of horses and foals, except in lots for draft breeds, will be reckoned from January 1, and in case of draft breeds the age shall be reckoned from date of birth. All foals, except in lots for draft breeds, will be considered as one year old on the 1st of January succeeding birth.
 - 5. Awards shall be made by a single judge in each class.
- 6. The Superintendent shall exclude stock from competition should there be any unnecessary or embarrassing delay on the part of exhibitors in bringing animals into the show ring.
- 7. Pedigrees of horses, in all cases, must be traceable to the American or Foreign Stud Books for the particular breeds to which they belong. All applications for entry of horses in lots for animals of record must be accompanied by name of breeder, name, age and date of birth, and name and number of sire and dam of the animal to be exhibited.
- 8. All animals entered for exhibition shall be in place not later than 6 o'clock P. M. Monday, September 23, 1895.
 - 9. Entries close Monday, September 16, 1895, at 6 o'clock P. M.
- 10. The Superintendent of Forage and Stalls will furnish exhibitors of horses with tickets permitting their assistants to remain on the grounds; but such tickets will not entitle holder to admission at the gate.
- 11. In all rings for "get of one sire," the exhibition of the sire is not essential to the award (except where otherwise noted).
- 12. When on exhibition in the ring each animal must be under bridle or halter and in charge of owner or employe (except as noted).

CLASS B-HORSES.

SECTION I. HEAVY HORSES.

E. E. CHESTER, Superintendent.

CONDITIONS.

All trotting and pacing races to be in harness, mile heats, three in five, except 395, No. 6, which will be two in three.

Rules of the American Trotting Association (of which this Board is a member) to govern, except as to distance, which will be same as old rules.

All running races will be governed by the new American Racing Rules,

Five to enter and three to start in all purse races.

A horse distancing the field, or any portion thereof, entitled to first money only.

The Board reserves the right to change the order of this program, to declare off any or all races on account of bad weather, or for other unavoidable causes; also to declare off any or all races that do not fill satisfactorily. Official notice of any change will be given in the daily program. Horses will be called promptly at 1, and start at 1:30 P. M. each day.

ENTRIES.

Entrance fee in all trotting and pacing races will be 5 per cent to enter and start, and 5 per cent additional from money winners. Entrance fee in all running races will be 5 per cent of purse.

In all trotting and pacing races money divided 50, 25, 15 and 10 per cent. In all running races money divided 60, 25 and 15 per cent, except as otherwise provided.

Entries, except as otherwise indicated, close Tuesday, September 17, 1895, at 11 o'clock P. M. Entries should be addressed to the Secretary.

For further information and entry blanks address

W. C. GARRARD, Secretary, Or Geo. H. Madden, Supt. Speed, Springfield, Ill. Mendota, Ill.

- 2. Pedigrees of sheep, in all cases, must be recorded in the American or Foreign Records for the particular breeds to which they belong.
- 3. Stubble-shorn sheep, and those with fleeces artificially colored, will be excluded from competition.
- 4. All sheep must have been properly sheared on or after the first day of April, 1895.
 - 5. Awards will be made by the single judge system.
- 6. Awards will be made as rapidly as possible, and at such time as the Superintendent may designate.
- 7. All animals entered for exhibition shall be in place not later than 6 o'clock P. M. Monday, September 23, 1895.
 - 8. Entries close Monday, September 16, 1895, at 6 o'clock P. M.
- 9. All ewes two years old or over must be the mother of a living lamb.

CLASS E-POULTRY.

LEN. SMALL, Superintendent.

- 1. Poultry showing any symptoms of disease will be excluded from exhibition.
- 2. Stock must be entered in the name of the actual owner. Blanks for entry can be obtained on application to the Secretary.
- 3. Poultry on exhibition cannot be removed until the close of the Fair.
- 4. The vitality of all eggs laid during the exhibition shall be destroyed unless taken by the owners.
- 5. The American Standard of Perfection shall be the main guide for the judge.
- 6. The terms "fowl," "chick," etc., are thus defined: Fowl—a bird hatched prior to 1895. Chick—a bird hatched during 1895.
- 7. The judge will award no premium to birds scoring less than 80 points by the American Standard of Perfection, or on fowls or birds improperly classed.
 - 8. Coops must be furnished by the exhibitors.
- 9. All poultry entered for exhibition shall be in place not later than 6 o'clock P. M., Monday, September 23, 1895.
 - 10. Entries close Monday, September 16, 1895, at 6 o'clock P. M.
- 11. All awards will be made by the best expert judges obtainable.

Lot 139. Processes of Manufacture.

Any exhibitor in this lot showing machinery in operation and 1132 an interesting process of manufacture, may sell and deliver the products of such manufacture (unless the same is covered by a permit to sell) without charge, except for exhibitors' and helpers' tickets. Space and power will be furnished free.

The same privilege of sale under the same conditions will be accorded to exhibitors making finished products by manual labor only.

This lot will include all manufacturing in metal, wood, fibres,

stone, gems for ornament, leather, ivory and other materials, the work being performed during the regular hours of exhibition in presence of the visitors.

Exhibits presented in this lot, whether the invention be covered by patent or not, will be subjected to the careful examination of competent, expert judges, whose reports will be submitted to the Board.

at its next following meeting in January.

CLASS G-FARM PRODUCTS AND PANTRY STORES.

D. W. VITTUM, Superintendent.

- 1. All grains, seeds and vegetables competing for premiums must be exhibited by the producer, and must have been grown in the year 1895.

CORN EXHIBIT.

RULES GOVERNING THE CORN EXHIBIT.

- 1. Each exhibit shall consist of twelve ears.
- 2. Express charges must be prepaid by exhibitor.
- 3. Corn for exhibition should be on the Fair Grounds at Springfield, Ill., not later than 9 o'clock A. M. Monday, September 23, 1895.
- 4. Each entry must be carefully labeled with name, postoffice and county of exhibitor, and number of premium to be competed for.
- 5. Corn not removed from the Fair Grounds by Saturday, September 28, will be considered the property of the State Board of Agriculture.
- 6. Names of exhibitors will not be placed upon samples, and no names will be given to the judges until after the awards are made: but all packages will be numbered, and the names of exhibitors properly registered in the book for the purpose, to which the public will have free access after the awards are made. The names of exhibitors may be placed on their exhibits after the judges are through, and theprize samples will be properly distinguished,

COUNTY EXHIBITS.

PRIZE LIST, RULES AND REGULATIONS GOVERNING THE GREAT STATE CONTEST.

1. Competition is open to every County Board of Agriculture, to Associations, and to individuals of every County in the State.

2. The displays from each County shall be confined to products actually grown therein, but the party exhibiting is not required to be

the producer.

3. Awards of prizes shall be based on the quality and variety of products shown in the several exhibits, and shall be made to the first, second and third best and largest displays from the counties forming the Northern, Central and Southern Grand Divisions respectively, to wit.

COUNTIES OF THE NORTHERN DIVISION.

Boone, Bureau, Carroll, Cook, DeKalb, DuPage, Grundy, Henderson, Henry, Iroquois, JoDaviess, Kane, Kankakee, Kendall, Knox, Lake, LaSalle, Lee, Livingston, Marshall, McHenry, Mercer, Ogle, Peoria. Putnam, Rock Island, Stark, Stephenson, Warren, Whiteside, Will, Winnebago, Woodford.

COUNTIES OF THE CENTRAL DIVISION.

Adams, Brown, Calhoun, Cass, Champaign, Christian, Clark, Coles, Cumberland, DeWitt, Douglas, Edgar, Ford, Fulton, Greene, Hancock, Jersey, Logan, Macon, Macoupin, Mason, McDonough, McLean, Menard, Montgomery, Morgan, Moultrie, Piatt, Pike, Sangamon, Schuyler, Scott, Shelby, Tazewell, Vermilion.

Counties of the Southern Division.

Alexander, Bond, Clay, Clinton, Crawford, Edwards, Effingham, Fayette, Franklin, Gallatin, Hamilton, Hardin, Jackson, Jasper, Jefferson, Johnson. Lawrence, Madison, Marion, Massac, Monroe, Perry, Pope, Pulaski, Randolph, Richland, Saline, St. Clair, Union, Wabash, Washington, Wayne, White, Williamson.

4. Each exhibit must include a representative collection of the CULTIVATED PRODUCTS of the farm, orchard and garden—cereals, grasses, textile and forage plants, vegetables and fruits. Also, NATIVE WILD grasses, nuts, fruits, and other useful products of the soil.

- 5. Each sample must be plainly and correctly labeled with local name, and with botanical name, if known to exhibitor, and each exhibitor must, before an award is made, furnish to the Superintendent of the Department a full and correct printed or written CATALOGUE of the samples composing his entire exhibit.
- 6. The enumeration of the varieties herein is intended as merely a suggestion, and not at all as a full list.
- 7. No exhibit which does not, as a whole, creditably represent the products of the soil in the county from which it is sent, shall be deemed worthy of any portion of the money offered for collective exhibits.

- 8. Every exhibit schould be carefully and tastefully arranged and installed BY THE EXHIBITOR OR AN AUTHORIZED AGENT, as this feature will be taken into account by the judges.
- 9. Entries of County Exhibits close September 19, 1895. Exhibitors are requested to be on the Fair Grounds Thursday, September 19, 1895, in order that their exhibits may be in place by the opening day of the Fair.

Lot 159. County Exhibits.

PRIZES.

1st prem. 2d prem. 3d prem.

1359 Best and largest display of Farm

Products from any county in the Northern Grand Division of the State, \$250 00 \$150 00 \$100 00

Best and largest display of Farm Products from any county in the 1360

Central Grand Division of the State.. 250 00 150 00 100 00

1361

Best and largest display of Farm
Products from any county in the
Southern Grand Division of the State. 250 00 150 00 100 00

Each County competing but failing to receive one of the foregoing prizes, will be paid fifty dollars (\$50.00) by an award of that amount to the best and largest display sent from it.

PARTIAL LIST OF PRODUCTS.

Every exhibit should include not less than—

CORN IN EAR-12 ears each variety of Dent; 12 ears each variety of Flint; 12 ears each variety of Sweet; 12 ears each variety of Popcorn. Not less than 10 varieties in all.

WHEAT-1 peck each of Winter and Spring. Not less than 3 varieties in all.

BUCKWHEAT—1 peck.

OATS—1 peck each variety. Not less than 3 varieties in all. RYE—Not less than 2 varieties. 1 peck each.
BARLEY—Not less than 2 varieties. 1 peck each.
BEANS—Not less than 4 varieties. 1 peck each.
PEAS—Not less than 2 varieties. 1 peck each.

Broom Corn Seed-1 peck.

SORGHUM SEED-1 peck.

CASTOR BEANS (for Southern Division)-1 peck.

HEMP SEED-1 peck.

FLAX SEED-1 peck.

GRASS SEED-Not less than 3 varieties. 1 peck each. CLOVER SEED—Not less than 2 varieties. I peck each.
POTATOES—Not less than 6 varieties. ½ bushel each.
TURNIPS—Not less than 2 varieties. ½ bushel each.
BEETS and other field and garden roots—½ bushel each.
CABBAGE, CAULIFLOWER, CELERY, KALE, EGG PLANT—6 samples each variety.

Other vegetables in quantities each for creditable display.

The small should be shown also in the straw, in bundles or sheaves not less than six inches in diameter, nor less than two bundles of each variety. Corn, broom corn, tobacco and sorghum, not less than six stalks of each variety.

Cultivated and wild grasses and clover and forage plants, two bundles, six inches diameter, each variety.

All samples in straw or stalk should be cut close to the ground, perfectly cured *in the shade*, if convenient, and then very carefully wrapped, *tagged* and packed.

APPLICATIONS FOR SPACE

Should be made as early as practicable, and not later than the 14th of September, 1895, to the Secretary of the State Board of Agriculture, Springfield, and should state the number of square feet of floor surface required, and the name and address of exhibitor.

It will greatly oblige if each exhibitor will accompany his application for entry with catalogue of his exhibit.

CLASS H-HORTICULTURE AND FLORICULTURE.

GENERAL RULES.

- 1. Awards will be made by the single judge system.
- 2 All articles entered for exhibition shall be in place not later than 6 o'clock P. M., Monday, September 23, 1895, (excepting cut flowers and designs.)
- 3. Entries will positively close Monday, September 23, 1895, at 6 o'clock P. M.
- 4. No article or object deemed unworthy shall be awarded a premium.

Section I. Horticulture.

IRUS COY, Superintendent.

- 1. All articles in this section must have been grown or produced by the exhibitor, and be correctly named and labeled. A plate of fruit to consist of four specimens, and only one plate of each variety will be permitted to compete for the same premium.
- 2. Fruit competing for the same premium must be arranged together, and separate samples must be furnished for each entry.
- 3. A list of fruit shown in collections, specifying the premiums for which entered, must be presented to the Superintendent for the use of committees.
- 4. Apples entered for the premiums offered for collections grown in the Northern, Central and Southern Divisions of the State must have been grown by exhibitor in the Division specified by the entry.

The Secretary will not be responsible for goods sent to his care, but all goods sent by express addressed to the owner at Fair Grounds, Springfield, Ill., will be delivered on the grounds.

CLASS I-ARTS.

J. IRVING PEARCE, Superintendent.

- 1. The name of the artist, if known, must be attached at the back of all specimens of Paintings, Drawings, etc.
- 2. All classes of Paintings, Drawings and Pastels entered for competition must be suitably framed.
- 3. All articles entered for exhibition must be delivered not later than 6 o'clock P. M., Monday, September 23, 1895.
- 4. Entries will positively close Monday, September 23, 1895, at 6 o'clock P. M.
- 5. No article on exhibition can be removed until the close of the Fair, except upon the written permission of the President.
- 6. In order to exhibit the art works to the best advantage, their arrangement is subject to the supervision of the official in charge.
- 7. Articles which are the product of artistic skill must be entered by the artist or his authorized agent.
 - 8. Awards will be made by the single judge system.

The Secretary will not be responsible for goods sent to his care, but all goods sent by express addressed to the owner at the Fair Grounds, Springfield, Ill., will be delivered on the grounds.

Lot 167. Fine Art.

CLASS K-TEXTILE FABRICS.

JAMES K. DICKIRSON, Superintendent.

- 1. The word "display" refers in the first place to the quality, and in the second place to the quantity.
- 2. When a premium is offered for a specified kind of work "not elsewhere shown," it is intended that any article of this style of work which is not specifically mentioned in the premium list, will be allowed to compete there, but each variety of work must compete with its kind, Kensington embroidery with Kensington, silk with silk, etc.
- 3. The judges are instructed not to award premiums unless the articles are deemed worthy of merit, or to articles borrowed or purchased for competition, or to those incorrectly entered.
 - 4. Awards will be made by the single judge system.
- 5. Articles entered for exhibition must be in place not later than 12 o'clock M., Monday, September 23, 1895.
- 6. Entries positively close Saturday, September 21, 1895, at 6 o'clock P. M.
- 7. No article on exhibition can be removed until the close of the Fair, except upon the written permission of the President.
- 8. Every article entered for competition shall be under the control of the Superintendent of the Department, but the Board of Agriculture will in no case be responsible for any loss or damage that may occur to the same.
- 9. The Secretary will not be responsible for goods sent to his care, but all goods sent by express, addressed to the owner at the Fair Grounds, Springfield, Ill., will be delivered on the grounds.

CLASS L-EDUCATION.

J. HARLEY BRADLEY, Superintendent.

ILLINOIS PUBLIC SCHOOL EXHIBIT.

GENERAL DIRECTIONS.

1. All work must be written with pen and ink (except that pencil work will be taken from graded schools, first and second years, and in drawing) upon legal cap or paper nine by eleven inches. A margin of 1¼ inches must be left for binding, and a margin of ½ of an inch on the right, and the exercise should be written within the marginal lines. The paper should be written on one side only.

Papers entered for each premium, except sweepstakes premiums, must be securely bound by themselves with a cover, upon which shall be stated the lot and number of the premium for which they are entered. If there are also entered for sweepstakes premium, put on the cover: "Entered for Sweepstakes." Put also on the cover the number of the district or name of the school, the township and county from which the papers come, and the name and postoflice address of the teacher.

A copy of the questions answered, and text translated, must be bound with each set of papers.

Each set of papers entered for one premium must be the work of three different pupils from the same school, in each branch.

- 2. Each pupil should write at the beginning of his papers his name, age, postoffice, the date of preparing the paper and the name of the teacher.
- 3. It is expected that the preparation of the above papers will be conducted in the same manner as a written examination—the pupils to have no previous knowledge of the questions given, and to receive no assistance during the writing, and that all papers entered for one premium will be prepared at the same time, except that more time may be taken for the drawing and penmanship papers entered for the sweepstakes for all schools.
- 4. All books and papers touching upon the subjects in examination must be removed from the pupils; dictionaries must not be consulted. All communication between the pupils must be forbidden and prevented during an examination. All erasures should be made by drawing the pen across words or lines to be erased. No changes of any kind should be made in the manuscripts of the pupils as they are left at the close of the examination.
- 5. All work in Mathematics must be given in full, as simple answers will not be considered.
- 5. All papers for this examination must be sent, and no later than July 2d, to the office of Public Instruction, Springfield, Ill.
- 7. For further information address the Secretary of the State Board of Agriculture. Schools in all portions of the State are earnestly solicited to send in specimens of work done by their pupils during the year.
- 8. All work designed for exhibition at the State Fair should be sent as noted above.

Lot 177. Country School Exhibit.

PRIMARY PUPILS (FIRST AND SECOND READERS). 1st prem. 2d prem. CLASS N-DAIRY.

H. J. CATER, Superintendent.

- 1. All articles must be entered and cards obtained from the Secretary before space will be assigned. Entries should be made on or before September 23, 1895, by application to the Secretary, at Springfield, who will furnish necessary blanks. Articles in Lot 194, Dairy Implements, entered for exhibition must be in place not later than 6 o'clock P. M., Monday, September 23, 1895, and all butter and cheese exhibits not later than 10 o'clock A. M., Tuesday, September 24, 1895. Manufacturers, dealers and inventors are invited to make an exhibit of Dairy Implements and Supplies.
- 2. Articles for the Fair should be billed to the "State Fair Grounds, Springfield," with charges prepaid.

- 3. All butter intended for exhibition at the State Fair shall be in eight-pound pails, except prints, which shall consist of five prints and not more than one pound in each print.
- 4. Each entry will require a separate package, except in Sweepstakes, and only samples awarded first prizes are eligible to compete for Sweepstakes prizes.
- 5. Dairy Butter shall consist of butter made on the farm, not in a factory, from milk of cows kept on one or more farms (by one individual or firm).
- 6. Creamery Butter shall consist of butter made in a factory, from the milk of cows kept on one or more farms (by two or more individuals or firms).

Flat Cheese shall weigh not less than 25 nor more than 40 pounds. Cheddar Cheese shall be not less than 13½ nor more than 15 inches in diameter, and not less than 9 inches high, and weigh not less than 50 pounds.

Young America Cheese. A case of Young America Cheese shall consist of four cheese, which shall together weigh not less than 32 pounds, nor over 40 pounds. Each cheese to be not less than 6 inches high, and 6 inches in diameter.

7. No awards will be made on butter in the manufacture of which any additional matter was used except cream from the milk of cows, salt and coloring matter. No awards will be made on cheese in the manufacture of which any additional matter except milk from cows, rennet or rennetine, salt and coloring matter was used, or on anything else than full cream cheese.

No awards will be made on butter or cheese scoring less than 85 points.

- 8. Awards will be made by a single judge, with following scale of points: Butter—Flavor 45, grain 30, color 15, salting 10; total 100 Cheese—Flavor 30, quality 30, texture 20, color 10, salting 10; total 100
- 9. All statements of facts required of exhibitors must be in writing and forwarded with the application for entry.
- 10. Judges are instructed that if they have good reason to believe that any exhibitor, by false entry or otherwise, attempts to deceive, and obtain an award by misrepresentation, they shall report the fact at once to the Superintendent of the Department, who shall report the same to the Board, who may expel such exhibitor for fraud for at least two years.
- 11. Every package must be marked plainly, with the name and postoffice address of the exhibitor making the entry, but the judges will not be permitted to see the marks of ownership while making awards.
- 12. Articles on exhibition cannot be removed until the close of the Fair.

The Secretary will not be responsible for goods sent to his care, but all goods sent by express, addressed to the owner at Fair Grounds, Springfield, Ill., will be delivered on the grounds.

SPECIAL PREMIUMS.

THE AMERICAN HEREFORD CATTLE BREEDERS' ASSOCIATION

The American Hereford Cattle Breeders' Association offers the following Special Premiums to be awarded at the Illinois State Fair of 1895.

All animals to be eligible to compete for these premiums must be recorded in the American Hereford Record:

Lot 7. Hereford.

		1st prem.	2d prem.	3d prem.
17	Bull 3 years old or over	. \$7 00	\$4 00	\$2 00
18	Bull 2 years old and under 3	7 00	. 4 00	2 00
19	Bull 1 year old and under 2	6 00	4 00	2 00
20	Bull under 1 year old	. 6 00	4 00	2 00
21	Cow 3 years old or over	7 00	4 00	2 00
22	Heifer 2 years old and under 3	. 7 00	4 00	2 00
	Heifer 1 year old and under 2		4 00	2 00
	Heifer under 1 year old		4 00	2 00

AMERICAN SOUTHDOWN BREEDERS' ASSOCIATION.

Lot 96. Southdown.

The American Southdown Breeders' Association offer a Special Premium of the first five volumes of the American Southdown Record for No. 434, "pen of 4 lambs, 2 rams and 2 ewes, the get of one ram, bred and owned by the exhibitor."

Also, a Special Premium of the first three volumes of the English Flock Book for No. 435, "Sweepstakes Ram;" and the same premium for No. 436, "Sweepstakes Ewe."

Conditioned: That animals competing for said premiums shall be recorded in the American Southdown Record prior to date of entry for exhibition; that the Secretary of the American Southdown Breeders' Association shall be notified of the entry at the time it is made; that premiums will be paid on certificate of the Secretary of the State Board of Agriculture.

THE AMERICAN SHROPSHIRE REGISTRY ASSOCIATION.

The American Shropshire Registry Association offer \$50 to be awarded as follows:

Lot 97. Shropshire.

1st prem.	2d prem.
Best Ram 1 year old or over, and four Ewes of any age	\$1 0 00
Best Flock of four lambs (one Ram lamb and three Ewe lambs) all to be American bred and owned	
by exhibitor 15 00	10 00

All sheep entered for above special premiums must be registered shropshires.

THE AMERICAN OXFORD DOWN SHEEP RECORD ASSOCIATION.

Lot 98. Oxford.

The American Oxford Down Sheep Record Association offers \$100 in special prizes for Oxford Downs, at the Illinois State Fair in 1895. The money to be divided as follows:

Don to consist C. C.		1st prem. 2d	prem. 3d prem.
Pen to consist of four Yearling Ram	lambs of either se	ex\$25 00 s	\$15 00 sin on
Yearling Ram		15 00	10 00
Pair Yearling Ewes		15 00	10 00

All stock competing for these prizes to be bred and owned by exhibitor in the State of Illinois, to be registered in the American Oxford Down Record, with A. O. D. R. A. ear labels inserted in the ears, and certificate of registry under seal of the Association presented at the time of exhibition.

THE AMERICAN BERKSHIRE ASSOCIATION.

Lot 107. Berkshire.

The American Berkshire Association offers the following Special Premium to be competed for at the Illinois State Fair of 1895, viz: The first five or the second five volumes of the Record of the American Berkshire Association necessary to complete the set of volumes of the successful competitor, and valued at five dollars per volume.

- (a) No. 547, Best Breeding Pen of Berkshires registered in the American Berkshire Record, to consist of a boar and three sows over one year of age, owned by a resident of the State of Illinois, the first five or the second five volumes of the Berkshire Record as noted above, valued at twenty-five dollars.
- No. 548, Best Breeding Pen of Berkshires registered in the American Berkshire Record, to consist of a boar and three sows under one year of age, owned by a resident of the State of Illinois, the first five or the second five volumes of the Berkshire Record as noted above, valued at twenty-five dollars.

CONDITIONS.

First-That the boars and sows competing for the prizes specified above be recorded in the American Berkshire Record prior to date of entry at the Fair, and that a list of such entries be sent the Secretary of the American Berkshire Association.

Second-That there shall be not less than two competitors for each of the prizes.

Third—That no animal competing for the above prizes be allowed to show for said premiums at more than one State or Provincial Fair

The earliest volumes of the first ten issued and necessary to complete the set of the sucessful competitor will be awarded.

For further particulars, address the Secretary, Charles F. Mills Springfield, Illinois.

160 to 170 South Miss. INDIANAPOLIS, IND.

ILLINOIS STATE FAIR, 1895.

The wisdom of the State Board of Agriculture in permanently locating the great annual exposition of the products of this wonderful State, was clearly and conclusively demonstrated in the success attending the Fair of 1894. The Board have determined to make the Fair of 1895 a still greater success than that of 1894, and with the encouraging, generous hand of the Legislature to a d them, can assure the people of not only Illinois, but the Union, that when they return to their homes after a visit to the Fair of 1895, they will exclaim with the Queen of Sheba, after a visit to the grandeurs surrounding Solomon—"The half had not been told."

The grounds of this Fair are the most picturesque and beautiful in the State. They embrace 156 acres of lovely undulating prairie, nicely wooded and watered, and situated two and a half miles north of the Court House, in the city of Springfield; easy of access by broad paved driveways and lines of electric street railways, and tracks of the Chicago & Alton and the Chicago, Peoria & St. Louis railroads, with trains every few minutes. These lands were generously donated by the Sangamon County Board of Supervisors to the State Board of Agriculture for that purpose. The grounds are now being improved as fast as practicable, with new buildings, barns, driveways, walks, and all conveniences necessary to make them complete for the accommodation of visitors, exhibitors and all classes of live stock and other exhibits.

The new Exposition Building, finished last year, is the largest and best appointed building ever erected for a similar purpose on any fair grounds in the United States. The length of the building is 342 feet, extreme width 217, mean width 127, height from grade line to the foot of the flag staff 105 feet.

The Machinery Hall, now in course of erection, will be completed by the middle of September. It is 500 feet long and 144 feet wide, 176 feet of which is enclosed, the balance being constructed like an immense train shed to a passenger depot.

The Agricultural Building is 200x200 feet, built especially for the exhibition of the products of the farm and orchard, and will be, when completed, the handsomest building on the Fair ground.

The Grand Stand is a steel structure seating nearly ten thousand people, and will be furnished with chairs all properly numbered, so that seats may be reserved for those who wish them.

The Dining Halls under this building will cover its entire length of 400 feet, affording greater accommodation and comfort to the visitor than those of any other fair ground in existence.

The privileges in this building will be let to caterers of well known reputation, and the Board guarantees the public will not be imposed upon.

The sheep and swine pavilions, poultry house, and barns for cattle and horses, are all models of perfection, and compare with those of any other fair ground in the United States as a Pullman palace car compares with an old fashioned stock car.

Special Attractions

For Housekeepers

I sell Solid Silver Teaspoons like cut for \$6.00 per dozen. All kinds of plated ware at lowest

prices.

In Housekeeping Goods I keep the best line and sell at prices lower than any other house in Central Illinois.

DISH PAN for	15c
DIPPER for	4 c
COAL BUCKET for	5 c
12-QUART BUCKET for	10c
12-QT. GALVANIZED BUCKET	21c

All other goods at proportionate prices. Call and see my stock whether you wish to buy or not. I know you will buy, for everyone does. Bring your friends, and tell them of the bargains they can get of me.

B. H. FERGUSON

SOUTH SIXTH ST., OPP. POSTOFFICE SPRINGFIELD, ILLINOIS.

5

The accommodations for speed and track horses are unsurpassed for safety and convenience, and are so pronounced by every horseman who has had the pleasure of visiting them.

The new race course is a thing of beauty—full regulation pattern—quarter turns and quarter stretches, perfectly tiled, fenced, and will be kept in the best possible condition by one of the most competent track men in the country.

The hotels of Springfield are favorably known all over the State, and they, together with the numerous boarding-houses, will afford to visitors comfortable accommodations during the week of the Fair. The many attractions of the city, places of amusement, magnificent State House, Executive Mansion, the home of our martyred President, as well as his last resting place beneath the National Lincoln Monument in beautiful Oak Ridge Cemetery, the Illinois Watch Factory, Iron Mills, and other large and important manufacturing establishments have conduced to make Springfield the most popular point in the west for excursionists and travelers.

The State Board of Agriculture places this Premium List in the hands of exhibitors and other interested, with no small degree of pride. The offerings aggregate \$40,000. No classification ever offered at a State Fair has embraced so many items for award. Special attention is called to the very liberal premiums offered for county exhibits of agricultural products.

Each county making an exhibit under the conditions named herein will receive \$50 as a bonus, if it is not awarded one of the nine premiums offered.

In addition to these munificent offerings, the great staple product of Illinois, corn, has a special classification with most liberal premiums, the whole making a premium list for agricultural products unparalled in the history of fairs.

The "Ladies' Department" has not been been neglected in the compilation of the Premium List, and every effort has been made to make this department even more attractive than ever before. The premiums are large, and are offered for all the standard articles usually shown in this department, together with new varieties of needle work, etc., which are now in vogue. Every facility for accommodating exhibitors has been provided, and superintendents and assistants are at all times ready to aid them.

COMPETITION OPEN TO THE WORLD.

Excursion rates of one fare for the round trip will be given on all railroads of the State. Exhibits of every description (except horses) will be charged one tariff rate going, and will be returned free, if no change of ownership has taken place.

Members of the press, crop correspondents, officers of county organizations and others holding complimentary tickets, will please report at the President's office, that the usual courtesies of the Illinois State Board of Agriculture may be extended to them.

Forage will be supplied to exhibitors of live stock at the lowest market prices.

For further information address,

W. C. GARRARD, Secretary, Springfield, Ill.

ESTABLISHED 1886.

Your attention is invited to the following classes of deposits on which this bank pays interest.

OPEN ACCOUNTS SUBJECT TO Deposits may be made in sums of PAYMENT ON DEMAND. one dollar or more, and withdrawn on demand without notice Interest on balances standing to the credit of depositors is computed and paid quarterly, according to Savings Bank rules, at three per cent. per annum. Checks may be drawn against these deposits. They are therefore as available and convenient for daily use as deposits in commercial banks, that pay no interest.

DEMAND CERTIFICATES We issue Certificates of Deposit that are payable in whole or in part on demand, without notice, which bear interest at three per cent. per annum on whatever sum remains with us for three months.

TIME CERTIFICATES We issue Certificates of Deposit that are payable at a stated time (not less than 45 days) in the future, and bear interest at four per cent. per annum. This is the most convenient way of depositing money that is to be used at some fixed time.

DEBENTURES. We issue Debentures (certificates of deposit with interest coupons attached) in sums of \$25 and upwards, running three years, but payable at the option of the depositor at any time on 45 days' notice. They bear interest (payable every three months) at the rate of four per cent. per annum from date of deposit to date of payment. This is the most convenient way of depositing money that will be wanted at some uncertain time. It earns continuous interest, and can be used on short notice.

General Rules and Regulations

FOR THE FAIR-1895.

Members of the Board Will See That These Rules are Strictly Enforced.

Shipments of Exhibits.

1. The Fair Grounds will be open for the reception of stock and articles for exhibition on Tuesday, the 17th day of September, 1895, and they should be shipped to the exhibitor or his agent, and in no case shall any article be brought upon the grounds and be placed upon exhibition except by and at the expense of the owner or his authorized agent.

2. Exhibitors of implements and machinery are requested to ship such articles as are intended for exhibition as early as possible, so as

to give ample time for transportation.

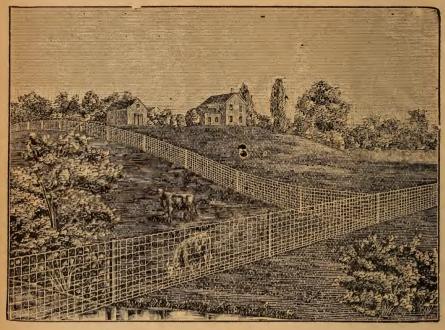

3. Freight for the Fair should be billed to the FAIR GROUND,

SPRINGFIELD, ILLINOIS.

4. All animals and articles entered for exhibition must be placed in the several departments prior to 6 o'clock P. M. Monday, September 23, 1895, and if not so placed, the owners will thereby forfeit all right to exhibit or compete for premiums, unless relieved from such result of forfeiture by order of the Superintendent of the Department in which they are entered.

Entry of Exhibits.

- 1. Entries may be made by addressing the Secretary at Springfield, Illinois. Applications for entry in live stock, Classes A, B, C, D and E, must be filed before Monday, September 16, 1895, at 6 o'clock P. M. Blank applications will be furnished at any time, on which to specify exhibitors name and address, with description of animal or article offered. No entry can be made after Monday, September 23, 1895, at 6 o'clock P. M., unless in case of unavoidable detention, and then only on the certificate of the Superintendent of the Department. Exhibitors will find their entry cards and exhibitors' tickets ready for them at the office of the Secretary on the Fair Grounds on the first day of the Fair.
- 2. Articles which are the product of mechanical or artistic skill may be entered by the artist, inventor, manufacturer, dealer or authorized agent.
- 3. On the entry of each animal or article, a card will be furnished the exhibitor specifying the class, the number of the lot, and the number of the entry, which card must remain attached to the animal or article during the exhibition except in Classes C, D and E, where the card should be attached to the pen or coop.

A PAGE WOVEN WIRE FENCE.

"A Battering Ram"

or a battering bull or any other attacking animal cannot demolish the Page Woven Wire Fence, because "it's not built that way." There is a great strength in the netted wires. It isn't stone-wall strength, but a strength that doesn't injure.

If a head of stock bolts against this fence he is thrown back unhurt, just as an acrobat leaps from the dome of a circus and springs lightly up from

the net far beneath.

The coiled springs that form the netting keep the fence from sagging and the strain of support off the posts. Coiled spring fencing will stand with no middle posts at all, and requires fewer posts to keep it firmer than any other combination. You can not rob it of its elasticity—bury it 'neath snow drifts, weigh it down in any manner, and you will find that when the weight is removed it bobs "Coiled Spring Hustler" to

up serenely like our childho "Jack-in-the-Box"—straight and childhood's sistant as before.

The wire in a coiled spring is extraordinary. It neither rusts nor rots, but, like its owner, keeps its temper for years and years.

The existence of such a fence as this should convince sensible folks forever against that harmful enemy of animal life—barb wire.

Something is gained by hooking fish, something is gained by whipping horses or dehorning cattle, but to torture a beast by a string of cruel spears which jag him whenever he approaches his limits, is inexcusable brutality.

The Page Fence is better than a S. P. C. A. in helping live stock to a

happier lot.

Its economy, too, is a not-to-be-forgotten fact. If you are interested in knowing more of this fence, why not write for catalogue and a copy of the

M. ZIMPELMANN.

State Agent, MARENGO, ILLINOIS.

4. All statements of facts required of exhibitors in making en-In all pure-bred classes recorded pedigrees, or such as are eligible to record, attested by the Secretaries of the respective pedigree records, must be furnished at the time of entry. Statements showing date of birth and the proportion of improved blood, so far as known in each animal exhibited, in lots for grades and crosses, must be furnished

at the time of entry.

5. No animal or article will be entitled to a place on the grounds until the entry shall have been made as above, except in cases of emergency, and then at the discretion of the Superintendent of the Department.

6. All State and Public Institutions shall be allowed to exhibit.

but shall not be permitted to compete for premiums.

7. Every animal or article entered for competition shall be under the control of the Superintendent of the Department in which it is entered, but the Board of Agriculture will in no case be responsible for any loss of or damage to the same that may occur.

Fees.

1. The following fees will be charged:

For exhibitor's ticket	
For each box stall for horses entered in Speed Department	4 00
For each box stall in sheds	2 00
For each open stall in stables	3 00
For each open stall in sheds	
For each open stall in cattle barns	
For each open stall in cattle sheds	
For each sheep	
For each hog	50

Provided that the application is filed with the Secretary before 6 o'clock, Saturday, the 21st day of September. Otherwise double fees will be charged.

Stalls will be assigned by the Superintendent of Stalls only upon the certificate of the Secretary that the fees therefor have been paid.

2. Each exhibitor must purchase an exhibitor's ticket before making entries, a firm being recorded as one exhibitor. Only one member will be admitted to the grounds on the ticket that entitles the firm to compete, and in no case will such ticket be transferable. Members of the competing firm may purchase exhibitor's coupon tickets at \$2.00 each. A complimentary ticket does not entitle the holder to compete for premiums.

Visitors.

Tickets will be sold as noted below:

Tickets	admitting	g one person\$0	50
44	"	child under 12 years	25
"	44		75
"	44	one or two-horse vehicle	50
44	"	four-horse vehicle 1	00
44	66	delivery wagon 3	00
dmission	to Grand		25

1. Each occupant of a vehicle must be provided with an admission ticket.

FOR SALE BY ALL DEALERS.

PREMIUM LIST.

2. No carriages or vehicles will be admitted to the grounds except at the carriage gate.

3. Delivery wagons will be charged \$3.00 for ticket, good for driver and wagon during the week. Deliveries to be made not later than 9 A. M.

4. No person will be permitted to remain on the grounds over night except those holding complimentary or exhibitor's tickets or permits, unless he has purchased tickets for the next day.

Rules Applicable to Animals.

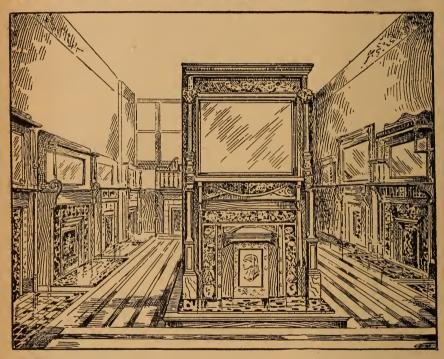

- 1. Any person who shall enter stock or occupy a stall or pen therewith, and shall fail to show in the class entered, shall be required to pay a penalty of not less than \$10,00, and the stock so entered shall not be removed from the grounds until such fine be paid, unless excused by Superintendent. The Superintendents of Forage and Classes A, B, C and D, shall be a committee to determine whether such stock shall have been properly exhibited, and their decision shall be final.
- 2. All competing animals shall be exhibited and paraded in the ring at the discretion of the Superintendents, and any exhibitor failing to comply with this rule will forfeit any premium awarded his stock. No animals shall be decorated with any unnecessary trappings, etc., during the examination by the awarding committee.
- 3. Every animal shall be entered and exhibited in the name of the bona fide owner or his agent at the time of entry (except where otherwise specified), but owners' names shall not appear on the entry cards.
- 4. The owner of the dam, at the time of service, shall be considered the *breeder* of the animal.
- 5. The Superintendents of Classes A, B, C and D, shall exclude stock from all competition, should there be unnecessary or embarrassing delay on the part of the exhibitors in bringing animals into the show ring.
- 6. The age of the animal, except as noted, shall be determined from date of birth to the first day of the Fair.
- 7. Animals affected by, or having been exposed to any contagious diseases during the thirty days next preceding the Fair, will be excluded from the grounds. All stock exhibited in breeding rings must be in breeding condition, and evidence must be produced, if required, that they are breeders. All male animals shown in any breeding ring must be entire, and no animal shall be considered which is affected with any chronic disease, deformity or any serious imperfection.
- 8. In case of the outbreak of any contagious or infectious disease among domestic animals, making it advisable for the public safety that such stock should not be exhibited at the Illinois State Fair, the Board reserves the right. in case of such an emergency, to withdraw the premiums therefor, by giving the public notice of such action at any time.
- 9. No animal on exhibition can be removed from the grounds until the close of the Fair, except animals affected with disease, and in such cases only upon the written permission of the President.
- 10. Symmetry, size, early maturity and general characteristics of each of the several breeds of animals will be considered by the judges.

ILLINOIS STATE FAIR.

Duties and Privileges of Exhibitors.

1. Exhibitors will at all times give the necessary personal attention to whatever they may have on exhibition, and at the close of the Fair, take entire charge of the same. The hour of closing the Fair is 4 o'clock p. m. Saturday.

2. Any exhibitor who tears off a premium ribbon, or authorizes another person to do so, in the presence of the awarding judge, or shall otherwise insult the awarding judge, shall forfeit the premium and be excluded from competition.

3. Exhibitors of live stock are expected to exercise due discretion in regard to exhibiting animals while in their stalls.

Protests.

1. Protests designed to affect awards must be made by an interested party, and notice given to the Secretary not later than 6 o'clock r. m. of the day before the animal is to be shown, and a written statement, verified by affidavit, setting forth the reasons for protesting, must be filed with the Secretary on the day the animal or article is exhibited.

In every case of protest the protesting party must deposit with the Secretary at the time of filing the protest, ten dollars (\$10), which sum shall, in the event of the protest being sustained, be returned to the complainant, and if the protest shall not be finally sustained, shall be paid to the Treasurer of the Board.

2. Protests will be entertained at any time thereafter previous to or during the first two days of the next winter meeting of the Board, if the protesting party shall state under oath that the facts upon which the protests are made were not in his possession at the time the award was made. In all cases where protests are made, if the Board shall be satisfied that they are instigated by improper or malicious motives, the Board shall exclude the party protesting from exhibiting for two years or more thereafter.

3. In case of protest based on fraud or other cause of ineligibility, the owner of the protested animal or article shall be required to verify the correctness of the entry by affidavit, which verified statement, together with all other obtainable evidence, shall be presented on the final consideration of the question at issue. In addition to the rights of protest herein guaranteed to interested parties, the State Board of Agriculture expressly reserves the right to take cognizance of fraud, which may have been consummated or attempted, and to deal with any party or parties implicated therein in such manner within the scope of the power of the Board, as may from the evidence relating thereto be deemed just and proper.

Awards.

1. Awards will be made by the single judge system.

2. Judges will report to the Superintendents at their respective departments at 9 o'clock A. M. of the day fixed for awarding premiums on the lots on which they are respectively to judge.

3. No person shall act as judge in any lot in which he may be interested as an exhibitor, agent or employe of an exhibitor, or otherwise, and if such case should be presented, the Superintendent of Department may remove such interested judge, or substitute another judge temporarily.

PERFECT PASSENGER SERVICE

AMFRICA'S MOST POPULAR RAILROAD

Hlton

The direct, best, and having the only complete rock-ballasted roadway, is the only dustless line between

> CHICAGO and ST. LOUIS CHICAGO and KANSAS CITY ST. LOUIS and KANSAS CITY

Ten Trains a day between Chicago and Springfield.

Eight Trains a day between St. Louis and Springfield.

The official records show that from December 4, 1879, to December 4, 1890, (eleven years) there was no passenger, who was in place as a passenger, killed on Chicago & a passenger, killed on Chicago & Alton trains. Moreover, there was not a passenger seriously injured (to the extent of losing a limb, an eye, or a member of any kind) during that time. This is a record which, perhaps, can not be duplicated by any other railroad in the world. During the entire period of the World's Columbian Exposition in Chicago, when it was not an uncommon thing to find the usual passenger traffic of the road increased two, three and four fold, and special excursion trains and extra sections of regular trains were very many, there was not an accident or catastrophe of any kind. The record of the Chicago & Alton made at that time is remarkable, and it is doubtful if it can be approached by any other railroad of prominence in the United States, Canada or Mexico.

JAMES CHARLTON, Gen'l Pass'gr. and Ticket Agent, Chicago, Ill.

- 4. The awards of premiums at the Fair shall be confined to entries named in the Premium List. The judges shall, however, examine all animals or articles entered and shown as "miscellaneous," and when any such exhibits are deemed sufficiently meritorious, they may recommend their suitable recognition by the Board, in which cases the judges shall enter on the entry books, and in a special report, if necessary, give their reasons in full for such recommendations. Such reports shall be returned to the Secretary, by the Superintendent, and shall be acted upon by the Board at its discretion, at the annual meeting next following the Fair, and the Secretary shall, at an early day thereafter, notify the parties interested of the action taken.
- 5. No animal or article deemed unworthy shall be awarded a premium; but no premium shall be withheld merely because there is no competition. Judges may award any grade of premium according to the merit of the animal or article.
- 6. Should any doubt arise as the regularity of entry, or any other important matter, which the judge feels incompetent to decide, he shall at once report the same to the Superintendent of the Department for decision, which, when made, shall be final.
- Judges are instructed that if they shall have good reason to believe that any exhibitor, by false entry or otherwise, attempts to deceive the judges or the public, and obtain a premium by misrepresentation, they shall report the facts at once to the Superintendent of the Department, who shall report the same to the Board, who may expel such exhibitor for fraud for two or more years.
- 8. The decisions of an awarding judge shall be final, and no appeal will be considered except in case of protest.
- Objections to any person serving as a judge must be submitted to the Superintendent in writing, prior to making any award, giving good and sufficient reasons therefor, and upon which the Superintendent shall bave full power to act.
- 10. Any exhibitor attempting to interfere with the judges during their adjudication will be promptly excluded from competition.
- 11. Each award (and notice of protest, if any is made) must be written in a plain, careful manner by the Superintendent, in ink or indelible pencil, in blank page opposite the entry.
- The books must be returned by the Superintendent of each Department to the Secretary as soon as the awards in each are completed.
- 13. Each Superintendent is expected to exercise great care in preserving and returning the Department Books, as upon the entries of awards in them, and upon no other authority can checks for premiums be drawn.
 - Awards will be designated as follows:

BLUE RIBBONS are designed for the first premium.

RED RIBBONS for second premium.

WHITE RIBBONS for third premium.

YELLOW RIBBONS for fourth premium.

ROYAL PURPLE RIBBONS for sweepstakes premiums.

Money prizes will be limited to first and second awards, except in speed rings.

Ribbons will be affixed at the time of the awards, on all premium animals shown in the rings. Upon all other animals or articles the

Superintendents of the several departments shall attach the ribbons as awarded by the judges, and they are *never* to be affixed to articles classed as "Miscellaneous."

Green ribbon is designated for miscellaneous articles, for which no premium can be awarded, except by the Board at a regular meeting.

Permits and Privileges.

- 1. The Superintendent of Permits and Privileges will sell privileges for dining hall, booths, stands, etc., for the Fair, on Tuesday, September 3, 1895, at 10 o'clock A. M., on the Fair Ground at Springfield.
- 2. No privileges will be granted for less than \$25.00, and no game of chance will be permitted on the grounds. The right is reserved to annul any permit by the Superintendent of Permits, for any cause satisfactory to him at any time.

3. No privilege or space can be re-sold except upon the written consent of the Superintendent of this Department.

- 4. The Superintendent of Permits and Privileges will issue one helper's ticket only for each \$12.50 paid for privilege. Additional helper's tickets will be furnished upon the payment of \$2.00 for each helper. Helpers tickets in this Department will be in book form, each leaf being used for the day and date printed thereon. Additional helpers tickets that are not used will be redeemed by the Superintendent of this Department on the last day of the Fair, at 33% cents for each ticket remaining in the book. No tickets will be redeemed in the helpers' books marked "original." In bidding for space concessionaires must take this fact into consideration in their bids.
- 5. Each concessionaire must confine himself to the space assigned him. Failure to do so will subject him to forfeiture of his privilege.

6. Helpers tickets will be good only at Helpers Gate.

Payment of Premiums.

1. Premiums will be paid in cash, except where otherwise noted. Medals, appropriately engraved, will be delivered after the annual meeting of the Board, in January.

2. After the awards are made and the books returned to the Secretary, he will draw, and on application deliver to those entitled to them, checks on the Treasurer, for the several amounts of cash premiums.

3. These checks must be endorsed, as they are payable to order—not to bearer—and on presentation to the Treasurer, properly endorsed will be reid.

dorsed, will be paid.

- 4. All checks will be paid at the Treasurer's office on the Fair Grounds, at 4 o'clock P. M., on the last day of the Fair, and at the Marine Bank in the city of Springfield, Illinois, within the time specified in rule 5.
- 5. Checks for premiums not applied for during Fair week, will be forwarded by the Secretary, on receipt of proper instructions, at any time within three months after the award.

Those not applied for within that time may be forfeited to the Board.

YOUNG MEN SHOULD LEARN SHORTHAND AT THE SPRINGFIELD BUSINESS COLLEGE.

Forage and Stalls.

1. The Superintendent of Forage and Stalls will assign stalls for cattle and horses, upon the certificate of the Secretary that the fees therefor are paid.

2. Stalls will be assigned only to bona fide exhibitors, and parties subletting stalls without permission of the Superintendent of Stalls, will thereby forfeit the same, and such stalls will be subject to re-

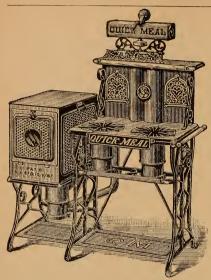

assignment.

3. Parties desiring stalls for the exhibition of horses and cattle at the Fair, must file their applications with the Secretary at Springfield. Blank applications for stalls will be furnished at any time, on which to specify the exhibitor's name and address, with name of breed of animals for which stalls are desired. Applications for stalls will not be considered unless accompanied by the fees.

Stalls used for feed or attendants furnished at same price.

Parties contracting for stalls and not occupying the same on or before Monday, September 23, will forfeit the fees paid, and the stalls will be subject to re-assignment. In case of unavoidable detention and failure to attend the Fair, proper notice of such inability must be given the Superintendent of Stalls prior to 6 o'clock r. m. on Saturday, September 21, otherwise the matter of returning the fees paid will not be considered. In case additional stalls have been constructed for the accommodation of applicants, and are not occupied by reason of failure of the party to attend the Fair, the stall fees will not be returned.

4. Any person who shall enter stock, and occupy a stall or pen therewith, and shall fail to show the same in the class entered, shall be required to pay a penalty of not less than \$10 for each offense, and the stock so entered shall not be removed from the grounds until such fine be paid. The Superintendent of Forage and Stalls and of Classes A, B, C and D, shall be a committee to determine whether such stock shall have been shown in good faith, and their decision shall be final.

LIST OF PREMIUMS

FOR THE FAIR OF 1895.

CLASS A.—CATTLE.

- 1. Protests-See General Rules.
- 2. All females 36 months of age or over must have produced a living calf within the last eighteen months before the first day of the Fair, or give satisfactory evidence of being in calf.
- 3. All applications for entry of cattle must be accompanied by name of breeder, name, age and date of birth, and name and number of sire and dam of the animal to be exhibited.
- 4. Pedigrees of cattle, in all cases, must be traceable to the American or Foreign Herd Books for the particular breeds to which they belong.
 - 5. Awards will be made by expert judges.
- 6. The Superintendent shall exclude stock from competition, should there be any unnecessary or embarrassing delay on the part of the exhibitors in bringing animals into the show ring.
- 7. All animals entered for exhibition shall be in place not later than 6 o'clock P. M., Monday, September 23, 1895.
 - 8. Entries close Monday, September 16, 1895, at 6 o'clock p. m.
- 9. Animals cannot be removed until the close of the Fair, except when affected by disease, and in such cases only upon the written permission of the President.
- 10. The Superintendent of Forage and Stalls will furnish exhibitors of cattle with tickets, permitting their assistants to remain on the grounds; but such tickets will not entitle the holder to admission at the gate.
- 11. A single animal may be exhibited as one of a herd, but shall not otherwise be entered in more than one lot (except in Lot 43, and lots for get of one sire and produce of one cow).
- 12. When on exhibition in the ring, each animal in Class A must be under halter, and in charge of owner or employe, except as noted.

The Ideal Stock Food.

"OLD PROCESS" GROUND LINSEED CAKE (OIL MEAL)

Beyond all question THE BEST food for all farm animals. At the Chicago World's Columbian Exposition, the Dairy Cows and Live Stock of all kinds were fed with goods of our manufacture, and we received the highest award.

DAIRY COWS.

LOWELL, MASS.

It affords me much pleasure to state that in feeding the Jersey herd in the great World's Fair dairy tests, Chicago, III., 1893, I fed liberally Old Process Ground Linseed Cake purchased from you, with most satisfactory results.

In the management of the Hood Farm Herd I am feeding liberally, with most beneficial results in the health of the cows and in the milk and butter production. (Signed)

VALANCEY E. FULLER,
Sup't of Hood's Farm Jerseys.

CATTLE.

McLouth, Jefferson Co., Kan.

I have been feeding cattle for 20 years, and have always been looking for the best methods so as to get the best results, and with all the ups and downs in the business of feeding cattle I have never yet lost money. My most satisfactory results have been obtained since I started to feed Old Process Linseed Cake. I have found nothing to compare with it for healthfulness, for since I commenced its use I have never had a steer die or even a sick one on my premises; it keeps the cattle perfectly healthy and regular and puts on a finish that can not be obtained with any other feed which I have need with any other feed which I have used.

(Signed)

MATT EDMONDS.

SWINE.

We have fed Oil Meal (Old Process) to hogs of all ages and under almost all conditions, and have always been pleased with the results. This stock food has a most excellent effect on the digestive organs and seems to render the animals thrifty and to help make use of the other foods supplied. I think it a good substitute for milk, the best of all whole foods for animals. I usually feed it with the slops, letting it stand in soak for 10 or 12 hours. It makes more bulk to your feed. For conditioning show animals it cannot be excelled, making the skin clean and pliable, the hair soft and silky, and the eye bright and clear, and in general imparts an appearance of thrift and health. I heartily recommend its use in the proper quantities.

Yours respectfully,

(Signed)

COTT BARNETT,

Sec'y Indiana Swine Broadent.

SHEEP.

I regard Old Process Linseed Cake as the best possible food for sheep and all other kinds of live stock. I am feeding it, not as a "medicine," but as a food, and consider it cheaper than corn or wheat. I am feeding one-third (%) of a pound of cake and one pound of wheat to each sheep per day, with very satisfactory results. I have tried Cotton Seed Meal, but prefer the Linseed Cake. There is no reason in the world why sheep should not be fed half oil cake and half either corn, oats or wheat—only the price. I believe sheep would do well on the cake and hay alone, without any grain. (Signed) PETER JANSEN.

In regard to your Linseed Oil Meal, I have found it to be all that is required of it. Those friends of mine in the same business that I recommended it to speak of it as highly as I do. For myself, I cheerfully say it is the best I have ever used, and you can rest assured I will always continue to use it while I am in the business, You can refer any party or parties to me with pleasure. I remain with respect,

(Signed)

CLASS B-HORSES, JACKS AND MULES.

- 1. Protests-See General Rules.
- 2. The same animal, being otherwise eligible under the rules, may be entered and shown as one of a pair, but shall not otherwise be entered in more than one lot.
 - 3. Draft horses can be entered and shown only in one lot.
- 4. The ages of horses and foals, except in lots for draft breeds, will be reckoned from January 1, and in case of draft breeds the age shall be reckoned from date of birth. All foals, except in lots for draft breeds, will be considered as one year old on the 1st of January succeeding birth.
 - 5. Awards shall be made by a single judge in each class.
- 6. The Superintendent shall exclude stock from competition should there be any unnecessary or embarrassing delay on the part of exhibitors in bringing animals into the show ring.
- 7. Pedigrees of horses, in all cases, must be traceable to the American or Foreign Stud Bocks for the particular breeds to which they belong. All applications for entry of horses in lots for animals of record must be accompanied by name of breeder, name, age and date of birth, and name and number of sire and dam of the animal to be exhibited.
- 8. All animals entered for exhibition shall be in place not later than 6 o'clock P. M. Monday, September 23, 1895.
 - 9. Entries close Monday, September 16, 1895, at 6 o'clock P. M.
- 10. The Superintendent of Forage and Stalls will furnish exhibitors of horses with tickets permitting their assistants to remain on the grounds; but such tickets will not entitle holder to admission at the gate.
- 11. In all rings for "get of one sire," the exhibition of the sire is not essential to the award (except where otherwise noted).
- 12. When on exhibition in the ring each animal must be under bridle or halter and in charge of owner or employe (except as noted).

.....They are mounted upon passenger trucks and can run in passenger trains. Feeding and watering arrangements perfect. Ample room for feed and water. Try one and take first prize. Apply to

THE BURTON STOCK CAR CO., 558 Rookery Bldg., CHICAGO, Ill.

Gen. Howard says:
Times Bldg.,
Chicago, Feb. 3,'94.
The Ramey Medicator and treatment for catarrh and kindred affections we have tried. dred affections we have tried.
It reaches directly the part
affected; the treatment has
proved invariably beneficial.
Very truly yours,
C. H. HOWARD.

Gov. Chase says:

Executive Dep't,
Indianapolis, Ind.
I have used your Medicator
with entire satisfaction for
colds and catarrhal trouble.
When used according to directions its effect is immediate and a cure seems certain not travel without it. Very resp'y, IRA J. CHASE. a cure seems certain. I shall

Nervous and Sick Headache.

Mrs. J. W Hale,
Of 284 Spring St., Aurora, Ill.,
says: I can highly recommend
your Catarrh Cure and Medicator for nervous and sick
headacde and throat trouble. I
would not be without one for
five times what it costs. five times what it costs.

DEAFNESS CURED.

L. W. Nichols, Jeweler, of Richmond, Ill., says: A few days ago I bought one of your Medicators for my wife, who was very deaf from catarrh. The use of it has been miraculous. Her hearing is perfectly restored. restored.

Cure yourself with Our Instrument and Home Treatment

RAMEY'S MEDICATOR

Cures Catarrh

Catarrhal Deafness, Headache, Neu-ralgia, Coughs, Colds, Bronchitis, Asthma, Hay Fever, LaGrippe, Etc., or money refunded.

Price complete with four months' treatment by mail, \$2. The medicine is put on a sponge in enlarged part of medicator. Insert twin tubes in nostrils, single tube in mouth, then blow; thus your lungs force highly medicated air into all parts of the head and throat. Send for Terms, Testimonials and Further Particulars

CALKINS ELECTRIC BURNER

Natural Gas can be had in every family for all stoves cheaper than coal or gasoline, and without danger of explosion. The "Caikins Electric Burner" generates gas from petroleum (or kerosene oil) and burns it with a long, white flane, heating all the lids of the stove more readily than with coal. The amount of heat desired is regulated by turning a valve controling the inlet of oil for generating gas. This device can be used on all kinds of cook stoves, by simply removing the cover and placing the burner in position and clamping it to the stove, where it is held firmly. It is perfectly safe, clean and durable, making no odor or ashes in the room. Constructed on a new principle, there is no clogging from the mineral in the oil.

Agents wanted in each town and county, to whom we give exclusive sale of our Burners. Active agents make over \$100 per

Active agents make over \$100 per month. Address for circulars and

CONDITIONS.

All trotting and pacing races to be in harness, mile heats, three in five, except 395, No. 6, which will be two in three.

Rules of the American Trotting Association (of which this Board is a member) to govern, except as to distance, which will be same as old rules.

All running races will be governed by the new American Racing Rules.

Five to enter and three to start in all purse races.

A horse distancing the field, or any portion thereof, entitled to

first money only.

The Board reserves the right to change the order of this program, to declare off any or all races on account of bad weather, or for other unavoidable causes; also to declare off any or all races that do not fill satisfactorily. Official notice of any change will be given in the daily program. Horses will be called promptly at 1, and start at 1:30 P. M. each day.

ENTRIES.

Entrance fee in all trotting and pacing races will be 5 per cent to enter and start, and 5 per cent additional from money winners. Entrance fee in all running races will be 5 per cent of purse.

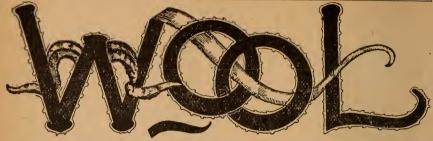

In all trotting and pacing races money divided 50, 25, 15 and 10 per cent. In all running races money divided 60, 25 and 15 per cent, except as otherwise provided.

Entries, except as otherwise indicated, close Tuesday, September 17, 1895, at 11 o'clock P. M. Entries should be addressed to the Secretary.

For further information and entry blanks address

At the request of many breeders of sheep, which are comparatively little known in America, the State Board of Agriculture gives the following breeds of sheep a classification in the premium list similar to that of the established breeds, except that no money premiums will be awarded. These classes will be regularly judged, but the premiums will consist of ribbons only.

CLASS E-POULTRY.

LEN. SMALL, Superintendent.

- 1. Poultry showing any symptoms of disease will be excluded from exhibition.
- 2. Stock must be entered in the name of the actual owner. Blanks for entry can be obtained on application to the Secretary.
- 3. Poultry on exhibition cannot be removed until the close of the Fair.
- 4. The vitality of all eggs laid during the exhibition shall be destroyed unless taken by the owners.
- 5. The American Standard of Perfection shall be the main guide for the judge.
- 6. The terms "fowl," "chick," etc., are thus defined: Fowl—a bird hatched prior to 1895. Chick—a bird hatched during 1895.
- 7. The judge will award no premium to birds scoring less than 80 points by the American Standard of Perfection, or on fowls or birds improperly classed.
 - 8. Coops must be furnished by the exhibitors.
- 9. All poultry entered for exhibition shall be in place not later than 6 o'clock P. M., Monday, September 23, 1895.
 - 10. Entries close Monday, September 16, 1895, at 6 o'clock P. M.
- 11. All awards will be made by the best expert judges obtainable.

THE Springfield Business College Has more calls for rapid and accurate Amanuenses than it can supply.

Lot 139. Processes of Manufacture.

1132 Any exhibitor in this lot showing machinery in operation and an interesting process of manufacture, may sell and deliver the products of such manufacture (unless the same is covered by a permit to sell) without charge, except for exhibitors' and helpers' tickets. Space and power will be furnished free.

The same privilege of sale under the same conditions will be accorded to exhibitors making finished products by manual labor only. This lot will include all manufacturing in metal, wood, fibres, stone, gems for ornament, leather, ivory and other materials, the work being performed during the regular hours of exhibition in presence of the visitors.

Exhibits presented in this lot, whether the invention be covered by patent or not, will be subjected to the careful examination of competent, expert judges, whose reports will be submitted to the Board

at its next following meeting in January.

CORN EXHIBIT.

RULES GOVERNING THE CORN EXHIBIT.

- 1. Each exhibit shall consist of twelve ears.
- 2. Express charges must be prepaid by exhibitor.
- 3. Corn for exhibition should be on the Fair Grounds at Springfield, Ill., not later than 9 o'clock A. M. Monday, September 23, 1895.
- 4. Each entry must be carefully labeled with name, postoffice and county of exhibitor, and number of premium to be competed for.
- 5. Corn not removed from the Fair Grounds by Saturday, September 28, will be considered the property of the State Board of Agriculture.
- 6. Names of exhibitors will not be placed upon samples, and no names will be given to the judges until after the awards are made; but all packages will be numbered, and the names of exhibitors properly registered in the book for the purpose, to which the public will have free access after the awards are made. The names of exhibitors may be placed on their exhibits after the judges are through, and the prize samples will be properly distinguished.

SPRINGFIELD, ILLINOIS

COUNTY EXHIBITS.

PRIZE LIST, RULES AND REGULATIONS GOVERNING THE GREAT STATE CONTEST.

1. Competition is open to every County Board of Agriculture, to Associations, and to individuals of every County in the State.

2. The displays from each County shall be confined to products actually grown therein, but the party exhibiting is *not required* to be the *producer*.

3. Awards of prizes shall be based on the *quality* and *variety* of products shown in the several exhibits, and shall be made to the *first*, second and third BEST and LARGEST displays from the counties forming the Northern, Central and Southern Grand Divisions respectively, to-wit:

COUNTIES OF THE NORTHERN DIVISION.

Boone, Bureau, Carroll, Cook, DeKalb, DuPage, Grundy, Henderson, Henry, Iroquois, JoDaviess, Kane, Kankakee, Kendall, Knox, Lake, LaSalle, Lee, Livingston, Marshall, McHenry, Mercer, Ogle, Peoria, Putnam, Rock Island, Stark, Stephenson, Warren, Whiteside, Will, Winnebago, Woodford.

COUNTIES OF THE CENTRAL DIVISION.

Adams, Brown, Calhoun, Cass, Champaign, Christian, Clark, Coles, Cumberland, DeWitt, Douglas, Edgar, Ford, Fulton, Greene, Hancock, Jersey, Logan, Macon, Macoupin, Mason, McDonough, McLean, Menard, Montgomery, Morgan, Moultrie, Piatt, Pike, Sangamon, Schuyler, Scott, Shelby, Tazewell, Vermilion.

Counties of the Southern Division.

Alexander, Bond, Clay, Clinton, Crawford, Edwards, Effingham Fayette, Franklin, Gallatin, Hamilton, Hardin, Jackson, Jasper, Jefferson, Johnson. Lawrence, Madison, Marion, Massac, Monroe, Perry, Pope, Pulaski, Randolph, Richland, Saline, St. Clair, Union, Wabash, Washington, Wayne, White, Williamson.

4. Each exhibit must include a representative collection of the CULTIVATED PRODUCTS of the farm, orchard and garden—cereals, grasses, textile and forage plants, vegetables and fruits. Also, NATIVE WILD grasses, nuts, fruits, and other useful products of the soil.

5. Each sample must be plainly and correctly labeled with local name, and with botanical name, if known to exhibitor, and each exhibitor must, before an award is made, furnish to the Superintendent of the Department a full and correct printed or written CATALOGUE of the samples composing his entire exhibit.

6. The enumeration of the varieties herein is intended as merely a suggestion, and not at all as a full list.

7. No exhibit which does not, as a whole, creditably represent the products of the soil in the county from which it is sent, shall be deemed worthy of any portion of the money offered for collective exhibits.

Ladies and Gentlemen are prepared for Business at the

ILLINOIS STATE FAIR.

8. Every exhibit schould be carefully and tastefully arranged and installed by the exhibitor or an authorized agent, as this feature will be taken into account by the judges.

9. Entries of County Exhibits close September 19, 1895. Exhibitors are requested to be on the Fair Grounds Thursday, September 19, 1895, in order that their exhibits may be in place by the opening day of the Fair.

Lot 159. County Exhibits.

PRIZES.

1st prem. 2d prem. 3d prem.

15 Field products..... Orchard products..... 15 25 30

100

APPLICATIONS FOR SPACE

Should be made as early as practicable, and not later than the 14th of September, 1895, to the Secretary of the State Board of Agriculture, Springfield, and should state the number of square feet of floor surface required, and the name and address of exhibitor.

It will greatly oblige if each exhibitor will accompany his appli-

cation for entry with catalogue of his exhibit.

CLASS H-HORTICULTURE AND FLORICULTURE.

GENERAL RULES.

1. Awards will be made by the single judge system.

All articles entered for exhibition shall be in place not later than 6 o'clock P. M., Monday, September 23, 1895, (excepting cut flowers and designs.)

3. Entries will positively close Monday, September 23, 1895, at 6

o'clock P. M.

4. No article or object deemed unworthy shall be awarded a premium.

Section I. Horticulture.

IRUS COY, Superintendent.

1. All articles in this section must have been grown or produced by the exhibitor, and be correctly named and labeled. A plate of fruit to consist of four specimens, and only one plate of each variety will be permitted to compete for the same premium.

2. Fruit competing for the same premium must be arranged together, and separate samples must be furnished for each entry.

3. A list of fruit shown in collections, specifying the premiums for which entered, must be presented to the Superintendent for the use of committees.

4. Apples entered for the premiums offered for collections grown in the Northern, Central and Southern Divisions of the State must have been grown by exhibitor in the Division specified by the entry.

The Secretary will not be responsible for goods sent to his care, but all goods sent by express addressed to the owner at Fair Grounds. Springfield, Ill., will be delivered on the grounds.

If you cannot attend the day time, attend the Evening Session of the

Hall & Herrick

ILLINOIS STATE FAIR.

Lot 160. General State Exhibit.					
1362 Exhibit of Nursery Stock			rem.	2d pre	em.
1363 Most artistically arranged display of fruits not named	1362

CLASS I-ARTS.

J. IRVING PEARCE, Superintendent.

- 1. The name of the artist, if known, must be attached at the back of all specimens of Paintings, Drawings, etc.
- 2. All classes of Paintings, Drawings and Pastels entered for competition must be suitably framed.
- 3. All articles entered for exhibition must be delivered not later than 6 o'clock P. M., Monday, September 23, 1895.
- 4. Entries will positively close Monday, September 23, 1895, at 6 o'clock P. M.
- 5. No article on exhibition can be removed until the close of the Fair, except upon the written permission of the President.
- 6. In order to exhibit the art works to the best advantage, their arrangement is subject to the supervision of the official in charge.
- 7. Articles which are the product of artistic skill must be entered by the artist or his authorized agent.
 - 8. Awards will be made by the single judge system.

The Secretary will not be responsible for goods sent to his care, but all goods sent by express addressed to the owner at the Fair Grounds, Springfield, Ill., will be delivered on the grounds.

Lot 167. Fine Art.

CLASS K-TEXTILE FABRICS.

⁶ JAMES K. DICKIRSON, Superintendent.

- 1. The word "display" refers in the first place to the quality, and in the second place to the quantity.
- 2. When a premium is offered for a specified kind of work "not elsewhere shown," it is intended that any article of this style of work which is not specifically mentioned in the premium list, will be allowed to compete there, but each variety of work must compete with its kind, Kensington embroidery with Kensington, silk with silk, etc.
- 3. The judges are instructed not to award premiums unless the articles are deemed worthy of merit, or to articles borrowed or purchased for competition, or to those incorrectly entered.
 - 4. Awards will be made by the single judge system.
- 5. Articles entered for exhibition must be in place not later than 12 o'clock M., Monday, September 23, 1895.
- 6. Entries positively close Saturday, September 21, 1895, at 6 o'clock P. M.
- 7. No article on exhibition can be removed until the close of the Fair, except upon the written permission of the President.
- 8. Every article entered for competition shall be under the control of the Superintendent of the Department, but the Board of Agriculture will in no case be responsible for any loss or damage that may occur to the same.
- 9. The Secretary will not be responsible for goods sent to his care, but all goods sent by express, addressed to the owner at the Fair Grounds, Springfield, Ill., will be delivered on the grounds.

CLASS L-EDUCATION.

J. HARLEY BRADLEY, Superintendent.

ILLINOIS PUBLIC SCHOOL EXHIBIT.

GENERAL DIRECTIONS.

1. All work must be written with pen and ink (except that pencil work will be taken from graded schools, first and second years, and in drawing) upon legal cap or paper nine by eleven inches. A margin of 1½ inches must be left for binding, and a margin of ½ of an inch on the right, and the exercise should be written within the marginal lines. The paper should be written on one side only.

If you cannot attend the day time, attend the Evening Session of the

ILLINOIS STATE FAIR.

Papers entered for each premium, except sweepstakes premiums, must be securely bound by themselves with a cover, upon which shall be stated the lot and number of the premium for which they are entered. If there are also entered for sweepstakes premium, put on the cover: "Entered for Sweepstakes." Put also on the cover the number of the district or name of the school, the township and county from which the papers come, and the name and postoffice address of the teacher.

A copy of the questions answered, and text translated, must be bound with each set of papers.

Each set of papers entered for one premium must be the work of three different pupils from the same school, in each branch.

- 2. Each pupil should write at the beginning of his papers his name, age, postoffice, the date of preparing the paper and the name of the teacher.
- 3. It is expected that the preparation of the above papers will be conducted in the same manner as a written examination—the pupils to have no previous knowledge of the questions given, and to receive no assistance during the writing, and that all papers entered for one premium will be prepared at the same time, except that more time may be taken for the drawing and penmanship papers entered for the sweepstakes for all schools.
- 4. All books and papers touching upon the subjects in examination must be removed from the pupils; dictionaries must not be consulted. All communication between the pupils must be forbidden and prevented during an examination. All erasures should be made by drawing the pen across words or lines to be erased. No changes of any kind should be made in the manuscripts of the pupils as they are left at the close of the examination.
- 5. All work in Mathematics must be given in full, as simple answers will not be considered.
- 5. All papers for this examination must be sent, and no later than July 2d, to the office of Public Instruction, Springfield, Ill.
- 7. For further information address the Secretary of the State Board of Agriculture. Schools in all portions of the State are earnestly solicited to send in specimens of work done by their pupils during the year.
- 8. All work designed for exhibition at the State Fair should be sent as noted above.

CLASS M-AGRICULTURAL IMPLEMENTS.

JOHN N. YOUNG, Superintendent.

1. Space will be assigned to exhibitors in this department after Monday, September 16, 1895, at 10 o'clock A. M., from which time the Superintendent will be present or represented at the Fair Grounds daily until the exhibits are located.

E. R. ULRICH & SON - - - GRAIN DEALERS

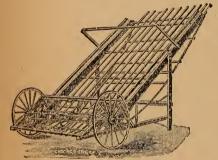

BEST PLANTER ON EARTH

CHECK ROW AND DRILL COMBINED

"HILL DROF"

King of all, and leads all in Accuracy of Drop as a Check Row and Drill Planter. Don't buy a Planter without investigating the U. S. Steel. HAS NO EQUAL.

Does not scratch and tear up the roots of the grass.

Does not take up manure and trash to injure
the Hay like other Loaders.

Hawkeye Hay Loader

Will take hay from the swath or light windrows, and windrows as made with Side Delivery Rake. Most Durable, Strongest and will outlast any Loader made. Being the most servicable makes it the cheapest.

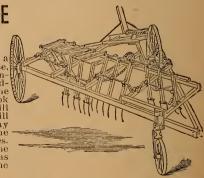

BEST LOADER EVER MADE.

Works on an entirely different principle from any other Hay Loader ever offered to the public. Rakes against and to the hay and not from it, thereby taking the hay clean from the ground and not dropping it BEHIND the Loader.

C. B. & Q. SIDE DELIVERY HAY RAKE

Six Years in the Field.
Only Successful One Made.

The hay is left in much better shape than when a common rake is used. It throws the hay in a loose, continuous windrow, so that the sun and wind can penetrate it and thus obviate the necessity of a hay tedder. The team goes around the field the same as the mower, taking up the dryest hay, leaving it shook loosely in the windrow so that the sun and wind will dry it out, if not quite dry when raked. This rake will take the place of spring tooth rakes by putting the hay in continuous windrows, which avoids going over the entire field, as is necessary with spring tooth rakes. The great advantage of a Side Delivery Rake is, the Hay Loader can follow the Rake, taking up the hay as fast as raked, thereby leaving no raked hay in the field to be spoiled by catching weather.

CHAMBERS, BERING, QUINLAN CO. MANFRS. DECATUR,

PREMIUM LIST.

2. No premium will be awarded in this class, but every facility afforded for exhibition.

3. Exhibitors will be furnished fuel and water.

- 4. Articles entered for exhibition shall be in place not later than 6 o'clock P. M., Monday, September 23, 1895.
 - 5. Entries close Monday, September 23, 1895, at 6 o'clock P. M.
 - 6. No article can be removed until the close of the Fair, except upon the written permission of the President.

H. J. CATER, Superintendent.

1. All articles must be entered and cards obtained from the Secretary before space will be assigned. Entries should be made on or retary before space will be assigned. Entries should be made on or before September 23, 1895, by application to the Secretary, at Spring-field, who will furnish necessary blanks. Articles in Lot 194, Dairy Implements, entered for exhibition must be in place not later than 6 o'clock P. M., Monday, September 23, 1895, and all butter and cheese exhibits not later than 10 o'clock A. M., Tuesday, September 24, 1895. Manufacturers, dealers and inventors are invited to make an exhibit of Dairy Implements and Supplies. of Dairy Implements and Supplies.

2. Articles for the Fair should be billed to the "State Fair

Grounds, Springfield," with charges prepaid.

2006 Stationary Hay Press.

E. R. ULRICH & SON, Grain Merchants Main Office, SPRINGFIELD, ILL.

ILLINOIS STATE FAIR.

- 3. All butter intended for exhibition at the State Fair shall be in eight-pound pails, except prints, which shall consist of five prints and not more than one pound in each print.
- 4. Each entry will require a separate package, except in Sweepstakes, and only samples awarded first prizes are eligible to compete for Sweepstakes prizes.
- 5. Dairy Butter shall consist of butter made on the farm, not in a factory, from milk of cows kept on one or more farms (by one individual or firm).
- 6. Creamery Butter shall consist of butter made in a factory, from the milk of cows kept on one or more farms (by two or more individuals or firms).

Flat Cheese shall weigh not less than 25 nor more than 40 pounds.

Cheddar Cheese shall be not less than 13½ nor more than 15 inches in diameter, and not less than 9 inches high, and weigh not less than 50 pounds.

Young America Cheese. A case of Young America Cheese shall consist of four cheese, which shall together weigh not less than 32 pounds, nor over 40 pounds. Each cheese to be not less than 6 inches high, and 6 inches in diameter.

7. No awards will be made on butter in the manufacture of which any additional matter was used except cream from the milk of cows, salt and coloring matter. No awards will be made on cheese in the manufacture of which any additional matter except milk from cows, rennet or rennetine, salt and coloring matter was used, or on anything else than full cream cheese.

No awards will be made on butter or cheese scoring less than 85

points.

8. Awards will be made by a single judge, with following scale of points: Butter—Flavor 45, grain 30, color 15, salting 10; total 100. Cheese—Flavor 30, quality 30, texture 20, color 10, salting 10; total 100.

9. All statements of facts required of exhibitors must be in

writing and forwarded with the application for entry.

10. Judges are instructed that if they have good reason to believe that any exhibitor, by false entry or otherwise, attempts to deceive, and obtain an award by misrepresentation, they shall report the fact at once to the Superintendent of the Department, who shall report the same to the Board, who may expel such exhibitor for fraud for at least two years.

11. Every package must be marked plainly, with the name and postoffice address of the exhibitor making the entry, but the judges will not be permitted to see the marks of ownership while making

awards.

12. Articles on exhibition cannot be removed until the close of

the Fair.

The Secretary will not be responsible for goods sent to his care, but all goods sent by express, addressed to the owner at Fair Grounds, Springfield, Ill., will be delivered on the grounds.

SPECIAL PREMIUMS.

THE AMERICAN HEREFORD CATTLE BREEDERS' ASSOCIA-TION.

The American Hereford Cattle Breeders' Association offers the following Special Premiums to be awarded at the Illinois State Fair of 1895.

All animals to be eligible to compete for these premiums must

be recorded in the American Hereford Record:

Lot 7. Hereford.

		1st prem.	2d prem.	3d prem.
17	Bull 3 years old or over	\$7 00	\$4 00	\$2 00
18	Bull 2 years old and under 3	7 00	4 00 .	2 00
19	Bull 1 year old and under 2	6 00	4 (0	2 00
20	Bull under 1 year old	6 00	4 00	2 (0
	Cow 3 years old or over		4 00	2 00
	Hefer 2 years old and under 3		4 00	2 00
23	Heifer 1 year old and under 2	6 00	4 00	2 00
24	Heifer under 1 year old	6 00	4 00	2 00:

AMERICAN SOUTHDOWN BREEDERS' ASSOCIATION.

Lot 96. Southdown.

The American Southdown Breeders' Association offer a Special Premium of the first five volumes of the American Southdown Record for No. 434, "pen of 4 lambs, 2 rams and 2 ewes, the get of one ram, bred and owned by the exhibitor."

Also, a Special Premium of the first three volumes of the English Flock Book for No. 435, "Sweepstakes Ram;" and the same premium

for No. 436, "Sweepstakes Ewe."

Conditioned: That animals competing for said premiums shall be recorded in the American Southdown Record prior to date of entry for exhibition; that the Secretary of the American Southdown Breeders' Association shall be notified of the entry at the time it is made; that premiums will be paid on certificate of the Secretary of the State Board of Agriculture.

THE AMERICAN SHROPSHIRE REGISTRY ASSOCIATION

The American Shropshire Registry Association offer \$50 to be awarded as follows:

Lot 97. Shropshire.

1st prem. 2d prem.

Best Ram 1 year old or over, and four Ewes of any age\$15 00 \$10 00

Best Flock of four lambs (one Ram lamb and three Ewe lambs) all to be American bred and owned

by exhibitor 15 00 10 00

All sheep entered for above special premiums must be registered Shropshires.

E. R. ULRICH & SON - - - GRAIN DEALERS

IN THE PRINCIPAL CITIES IN CENTRAL ILLINOIS.

THE AMERICAN OXFORD DOWN SHEEP RECORD ASSOCIATION,

Lot 98. Oxford.

The American Oxford Down Sheep Record Association offers \$100 in special prizes for Oxford Downs, at the Illinois State Fair in 1895. The money to be divided as follows:

All stock competing for these prizes to be bred and owned by exhibitor in the State of Illinois, to be registered in the American Oxford Down Record, with A. O. D. R. A. ear labels inserted in the ears, and certificate of registry under seal of the Association presented at the time of exhibition.

THE AMERICAN BERKSHIRE ASSOCIATION.

Lot 107. Berkshire.

The American Berkshire Association offers the following Special Premium to be competed for at the Illinois State Fair of 1895, viz: The first five or the second five volumes of the Record of the American Berkshire Association necessary to complete the set of volumes of the successful competitor, and valued at five dollars per volume.

- (a) No. 547, Best Breeding Pen of Berkshires registered in the American Berkshire Record, to consist of a boar and three sows over one year of age, owned by a resident of the State of Illinois, the first five or the second five volumes of the Berkshire Record as noted above, valued at twenty-five dollars.
- (b) No. 548, Best Breeding Pen of Berkshires registered in the American Berkshire Record, to consist of a boar and three sows under one year of age, owned by a resident of the State of Illinois, the first five or the second five volumes of the Berkshire Record as noted above, valued at twenty-five dollars.

CONDITIONS.

First—That the boars and sows competing for the prizes specified above be recorded in the American Berkshire Record prior to date of entry at the Fair, and that a list of such entries be sent the Secretary of the American Berkshire Association.

Second—That there shall be not less than two competitors for

each of the prizes.

Third—That no animal competing for the above prizes be allowed to show for said premiums at more than one State or Provincial Fair in 1895.

The earliest volumes of the first ten issued and necessary to complete the set of the successful competitor will be awarded.

For further particulars, address the Secretary, Charles F. Mills Springfield, Illinois.

Oltmanns Brothers

Pioneer Importers and Breeders of

World's Fair Prize Winning

GERMANHANOVERIAN OLDENBURG

oach Horses

WATSEKA ... ILLINOIS

Also LEER, GERMANY

The first German Coach Horse that ever came to America was imported by this firm in 1885, and since that time we have been at the front at all the great fairs in most of the Central-Western States.

This firm has unequaled opportunities of making the best selections of desirable stock. O. V. Oltmanns, our oldest partner, resides in the district where the best stock is bred and raised, knows the breeders and owners of the stock, sees the stock grow up, if he does not raise the animals in his own establishment.
